CyberError - March 13, 2020, 1:33 am

make a fake email template, and just edit the name and amount and show them the "fake image " you made and tell them the amazon will refund their money in 48 hours

same thing with cashapp

Op, gtfoh. Double dipping has never worked on cashapp and stopped working on Amazon when they allowed you to resend the same order that invalidates all previous unredeemed ecodes.
