WOLFSec - Where the like-minded work together

WOLFSec is a group driven by ambition, perseverance, and most importantly, individuals that share their ideas with each other, which ultimately benefits the group and its members as a whole, as well as supporting our objective. So far, we've implemented various discussions to take part in such as hacking/security, programming, bug bounties, information gathering, pharmacology, and even organic chemistry and experiments. Though those topics are of the majority, that doesn't mean we can't expand as far as the knowledge we can teach/show one another. That is something we strive to do often. Learning and working as a team, rather than being given an e-book and told to follow it to a "T" by yourself, can be profoundly beneficial. We will also make use of our money-making methods together and teach new members along the way.

Without revealing too much, to simply state it, we are looking for people that have a passion for the topics mentioned above and are consistent when it comes to wanting to learn new material. Even if you're not experienced and you want to be, the members here at WOLFSec will assist you as necessary. Not only are we implementing a paid mentor system where those that act as mentors can get compensated for teaching/training other people, but we are normal individuals that just want to share every bit of beneficial piece of knowledge with the group that we have. We will have mentors/captains for specific topics that they specialize in as well.

If you're interested in joining, you can reply to this thread stating such. I'd recommend sending me a PM as well, that way I definitely see your interest in joining.

Group founder, [L0-kae](#), is also accepting messages via HF or Discord. You may add/contact either one of us for further information.

We are looking forward to hearing from those interested. Your contribution and desire to work with us is greatly appreciated.

Glad to have you apart of our team, good things to come.
vouching for WOLFSec, full of open minded & bright people.

r3alms - March 16, 2020, 7:36 pm

i would like to join the team please pm here or on telegram bgtm11 or my wickr cb341982

Dr. Gonzo - March 23, 2020, 1:59 pm

Interested in joining. Sent you a PM

BL4CKT3RR0R - March 24, 2020, 9:24 am

Dear Psychogenic and WOLFSec,
I'm interested and passionate about joining WOLFSec.
I always wanted to be a part of community or any group for whom I can work.
Thank you :)

PySamurai - March 27, 2020, 6:50 pm

Good Evening

Im Interested into joining your group iam 26 years of age i reside in the Caribbean area.
I am intermediate experienced in pyhton
advanced in php, sql, html, css
getting deep into Penetration Testing and looking for a group of like minded individuals with the same ideology.

Let me know i am highly interested

Nights - March 28, 2020, 3:37 pm

Dear Lo-kae, I would love to be a part of your group wolfsec.
Consider me :)

Giin - March 29, 2020, 7:16 am

Interested in joining. ??

internetjunkie5000 - March 31, 2020, 12:41 am

I would love to join. :-D

I am interested in joining. Please send me a PM with the details.

nightwalker356 - April 1, 2020, 4:50 am

I am interested in joining and learning, PM me with details and requirements.

Kompers - April 3, 2020, 1:34 am

I'm interested in joining and seeing what you guys are all about. Please PM me.

Dotexe - April 3, 2020, 1:39 am

Please tell me this is a skidfree group.

venomlove_007 - April 3, 2020, 2:02 am

im interested have to work on and how to do

Penetrator-Perpatrator - April 6, 2020, 5:39 am

I'm new to this website but I'm interested in joining your group if you'll have me.

I'm 24, an OSCP, and a professional cyber security consultant specializing in covert penetration tests.

hinstera - April 14, 2020, 6:27 am

I love your concept regarding like mind work Together and sharing individuals ideas. <-- this one hit me .. i love to discover new ideas.

ToastyCrumpet - April 16, 2020, 8:26 am

Id love to join W0lfSec! Im anxious to learn more about real world environments and interactions and not just the stuff that is taught in the classroom. Unfortunately I can't send you a PM so hopefully you see this :)

Sh4ggy - April 16, 2020, 11:01 am

I'm defiantly interested in joining, I think if you took a brief look at some of my posts and threads. You could find me as a decent asset to your team/group. I'm prepared to supply proof of some of my recent work in pertaining to OSINT, SOCINT, cryptocurrency tracking along with a profile I recently did on a state representative over Georgia.

You will also find while looking over my posts that I'm very much knowledgeable in many different things and anything I don't know, I learn pretty quick.

I understand that I'm still fresh meat around here at HF but, I think I've given a well enough first impression to back me applying to your group.

Kind regards,
~Shaggy

JU-11101 - April 16, 2020, 11:24 am

I am interested, you can send me a link. Tho I am a beginner, so I would hope that you could teach me how to hack, DOS/DOX.

MadGoofyHF - April 18, 2020, 8:35 am

I'm really interested to join your group. I just sent you a PM :)

Wish you all the best
