Thread: [\\$20 LIFETIME - Discord Account Creator Bot \(+SMS Verification +Email Verification\)](#)

therealddm - March 16, 2020, 4:42 am

Hello, I'm selling a Discord Account Creator Bot. The bot will register on Discord, it'll verify email aswell by itself, and if required, it'll verify SMS aswell.

We support 2Captcha as the captcha solver & SMSPVA for SMS, though if you have any other, it can be implemented.

After creating an account, it'll give the token so you can access the account easily.

It also supports proxies, it supports rotating proxies, & normal proxies. We also plan to add socks aswell soon, and accepting ideas for the bot aswell!

The price is \$20 Lifetime, you get support and updates for the lifetime of the product.

You can add me on [warn]

I have many vouches on my coding service thread.
