Thread: [Instagram Money Making Method \[White Hat\]](#)

NJCVE - March 17, 2020, 3:00 am

Hello everyone today is the day I decided to realese my e-book about an Instagram money makign method I thought of when researching a certain topic, and have tried it (works and has potential) The mothod of completing this method is completely whitehat, but I do include a couple ways you can boost your "verifiability" that arn't exactly innocent. This means that you can still earn money without doing anything that may cause issues.

An Introduction of the e-book (without thank you for purchase xD):
Introduction:

This is a method that I thought about when starting researching "topic" last year (haven't seen this anywhere), and see this as one of the best money making methods, however it does take commitment to setup. Therefore, if you can't generate any money instantly don't go complaining that this is one of the worst methods you have seen, but once you start earning money, the job becomes easier and easier.

This is reality, if you don't like it go back to clicking ads to earn bitcoins, that you never receive.

Shopyy link for purchase:

Do you have revenues that you can show us? I mean \$15 for a white-hat method is really cheap, but if it's just some ebook that teaches us to; find a niche, download photo's without copyright, post regular, sell shout-outs / products.. than it's not really a good purchase. If you can show us that you made a lot of revenues, it will increase the credit of your ebook and make us more tempted to buy it.

No hate, sales thrash or whatever, just a tip.

No hate, sales thrash or whatever, just a tip.All right, thanks for the tip, i'll have to look through my transaction history and try to find them, and it seems that my method is similar to what you have just sated, not exactly but 50%, would you recomend the publishing of this thread or remove it? Although i feel like this is still a very vible way to earn money.

Thanks in advance.

Thanks in advance.

I'd say, upload proof of revenues preferably most recent revenues. Share what you'll include all in the method and try to make a few sales for vouchers, so others know how valuable your method is. Removing it will be like quitting, why even try in the first place.
