Thread: [\[TUTORIAL\] <<<< HOW TO PORT FORWARDING LIKE A PRO >>>>](#)

NYANxCAT - March 17, 2020, 5:19 pm

In this guide I will explain how to:

- [1] Disable Anti Virus
- [2] Download a RAT
- [3] Add RAT to Windows Firewall list of exceptions
- [4] Add RAT & PORT to Windows Firewall inbound & outbound rules
- [5] Add PORT to the router port-forwarding list - [choose your router here](#)
- [6] UPDATE: Use this tool to help you add port and RAT - [URL](#)

This is why I have alerts setup on YouTube lol. Awesome thank's for the upload!

Congrats on getting married to btw!

Obistone - March 17, 2020, 10:40 pm

Nice tutorial cat, thanks for uploading.

kausar0707 - March 18, 2020, 12:09 am

Thanks for sharing this tutorial dude, very useful and beneficial for all all people, you are very top! :)

zelus - March 18, 2020, 4:43 am

whats the downside of this?

Using your personal IP to RAT?

YuZeRsF - March 18, 2020, 1:40 pm

nice tut ,

great video

Using your personal IP to RAT?

It means anyone could open up Wireshark or something similar and see the request going out to your personal IP. They could get your general location and report you to your local authorities.

Stanley - June 13, 2020, 4:05 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
