Thread: [I own 1 Bitcoin](#)

SIM-1169085 - March 19, 2020, 6:38 am

Hey guys I'm really excited to announce this but for the last year I've been building this portfolio. I started with Basic Attention Token. Then Ethereum. And finally I own 1 whole bitcoin.

I have to tell you guys it feels really good to finally have reached this accomplishment. I've worked so hard in my job 40+ Hours a week as a manager and this is how you do it guys. You want to know how to earn bitcoin go and get a job and work for it.

Hopefully all works out in my life and I can reinvest my bitcoin into a restaurant franchise down the road from here.

I told myself I would quit investing into crypto currency after I reached a goal of one bitcoin but now that we're in a bear market I will continue earning my bitcoin until further notice.

Thank you to all the people on Hack Forums who posts threads in this sub section of the forum you guys are great and im just so euphoric right now even though I've lost 8000 dollars in this bear market. This is truly a achievement for myself personally. HODL guys!

Take a look at that RED BOYS! ?
