Thread: [CMU - Introduction To Computer Systems \(FREE COURSE\)](#)

Bass_Reeves - March 19, 2020, 11:14 am

Hey

Seems like Coronavirus aka COVID-19 is shutting the world down. If you're a beginner its a great opportunity to get some extra hours of study/practice in.

Carnegie Mellon University has a intro to computer systems course cover all the low level stuff like Assembly, Memory, Cache etc...

This course is probably more on the intermediate side, need to know some C but theres plenty of free resources online for that.

This is a College level education in Computer Science for FREE.

Course Info - <https://www.cs.cmu.edu/afs/cs/academic/class/15213-f15/www/>

Videos Lessons -
