Thread: [Is there a CSGO HvH Scene on HF](#)

Just wondering if there's much of a CSGO HvH scene on HF?

If you are into HvH just wondering what country your from if you wanna play and I was thinking about maybe running a Unoffical HF CSGO HvH server.

Used to HvH back in the day but stopped because the scene is dying. I wouldn't mind HvHing again. As for the HF HvH server, you'd probably have to get permission from staff. Not sure tho

Ah okay and I'm sure if it's an Unofficial HF Server it should be fine but I could be wrong it was just an idea I had so I'm not committed to it yet. Just thought I'd see how big the scene is on HF first because I don't really see post about it.
