Well, if you have CSGO Loyalty Badge(not sure if without loyalty badge this works) or PUBG 25+ Hours or GTA5 25+ Hours.

You can go to csgopolygon com or csgopolygon net

If site does not work, use VPN.

Login with steam, redeem promo code TJACK

Send me a proof of you doing that and I will give you 30 bytes, you can even open contract if you are scared or something. ?

Not sure if this is right section
