Thread: [Get Free Tezos + Bonus](#)

FindDIY - March 20, 2020, 2:41 pm

So, this is a method you can use to get free Tezos.

If you have a blog or website, you can use one of your pages to redirect users to the destination site. Kind of how a link shortener works.

But first,

The Tezos Foundation has a faucet that allows you to claim 0.01 XTZ every 48 hours. Just input your XTZ wallet address and a valid phone number.

Once you make a claim, your XTZ wallet address and IP address will be graylisted for 48 hours.

Tip - You can make additional claims with a different XTZ wallet address, a different IP address and a different phone number.

1. Make your first claim on your home WiFi network or other location with your first wallet address and mobile phone.
2. Turn off WiFi and use your cellular provider with a different wallet to make a second claim.
3. Use a VPN with a VOIP phone app and another wallet to make another claim.

Important! Wait for the transaction to complete before trying again.

FYI - It can take a few minutes for your claim to process. Once it is completed, you are ready to make another claim.

--> There is no referral program for this.

See how the page redirection works here - <https://www.blackhatteams.com/p/tezos.html>

This is the link to the faucet page - <https://faucet.tezos.com/>

works fine but i don't understand the concept of redirecting.. Also adding new phone number everytime for pennies is just not worth it..
