I was thinking on starting a little minecraft or a gmod (darkrp) server, just for fun..

So if anyone would like to be part of it or have any experience as an admin, let me know..

I would like to be apart of it. I can be a moderator if you would like.

Had a damn good, content-packed DarkRP (Casino-themed) server with VC Lights, amazing car/casino and drug mods. Felt like PERP and used to play with friends but then we just stopped and I closed it down due to inactivity. Still have files and all.
