OP, these screenshots are me being hurt by the staff of spackhost, and @Spackhost is actually talking about giving me a vouch for another 25\$ vps... So... If this is true then will this redeem him??

Years of scamming can't be redeemed by him giving you a trial server from a real spoof host. He has still scammed others under his current domain and account too.

Sweatydude - March 22, 2020, 8:18 am

what other spoofed vps hosts shall we go through then master? :/

Im not who you think.

Im just bored about all of you ripping spackhost without any proof.

Im selling alot because my servers are good and my servers are really cheap thats all.

Let me know if you need somethings.

every time he does this he makes the following:

- a fake give away thread
- claim to sell thousands of servers
- makes a shitty whmcs site

and he always shows he is italian in one of his posts
