Thread: [User Control Panel Glitch Error](#)

1GGov2wivb1Pb6pyS7hmkDXYE - March 21, 2020, 7:48 pm

On the drop-down menu, it says "Upgrade" instead of where User Control Panel is supposed to be.

It should say "Account"

It may not be the end of the world lol, but I decided to report this to the proper authorities. Thanks guys!!!

Not a glitch but a typo.

btw, why is your username a btc address lol

Yup not a glitch but more of a typo. My username is part of my BTC address because I couldn't think of anything else lol

I couldn't fit the whole address though.

Lose that and your account is basically gone. Not sure how you'll remember that string without it. ???

Yeah that pretty much goes for everyone lol. Don't forget your password and username :)

This is just a very simple HTML written error. When coding navigation bars it makes everything easier if you just copy and paste the line over and over to then just change the links and words.

[Xerotic](#)

To fix this just use this code. YW

Code <i class="fa

fa-cog fa-lg" aria-hidden="true"></i>Account
