Thread: [\[OFFICIAL\] Third Gamblers Tourney - Blackjack - Win the Pink Diamond! TODAY!](#)

Lavish Living - March 22, 2020, 11:36 am

Third Official Gamblers Tournament

Every month my group will host an official tournament in various different games (poker, blackjack, DNP, slots, etc) where the winner will receive the extremely limited Diamond of Gamblers award! There will only be 9 more winners for this award, one winner per month for the remainder of 2020.

For our third official tournament, we are opening it up to all of Hackforums.

This tournament will feature Blackjack played on Hackforums as a home game tournament. We will be using the bytes blackjack. Tournament information will be released soon.

Tournament Info:

Sunday, April 19th 12:00AM - 11:59PM PST

If anyone knows a site where we can host a blackjack tournament, feel free to suggest it. For now...

*Every participant will be expected to screen record their blackjack play.

If you can not or will not submit a video, DO NOT ENTER THIS TOURNAMENT!*

1. Every participant must start with 500 bytes. Do not start your video with any amount other than 500

- You can send any amount over 500 to me, put it in crypto game, or store it in your crew vault. You can also message me if you need 500 bytes for a payment of \$2.

2. Every participant must show their bytes history page at the beginning of the video, and at the end of the 50 hands. There should be NO blackjack play for April 19th prior to the start of the video. This will result in a DQ. If you are unable to see your bytes history (nonupgraded), pm me on April 19th before you begin

3. Every participant is allowed to play up to 50 hands. You may stop your video anytime between 1 and 50 hands. Your final bytes amount will count as your score. Remember to show your bytes history at the end of the video. I will be checking videos and bytes histories for the 3 highest scores, if there is any foul play the participant will be DQd.

4. Every participant will have 24 hours to play their 50 hands and submit a video on this thread. On April 19th.

How do you sign up?

- Non Gambler members: 2,500 bytes or \$10 buyin

- Gambler members: 100 bytes

- Use the contract form found below, then post on this thread once you have paid.

- Any cancellations must be made at least 24 hours before the start of the tournament in order to receive a refund.

- Once you have paid you will be given instructions on how to register on poker stars for the

tournament.

Going to have to ask [Xerotic](#) for some help.

Either a blackjack tourney coded into blackjack.php, or an ability to track bets on bytes history page.

Ideally everyone will start with 500 bytes and play anywhere from 1-100 hands. Person with highest bytes at the end wins.

For sure, or screen share hand by hand (could get very redundant). Interesting to see what you can work out. Awesome concept; may have to land myself a spot

You might be. I agree it can be fun. But again, because how long it'll take it's not reasonable.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

If you think you can beat 0 bytes after 50 hands of blackjack starting with 500 bytes, you should give it a go!

Technically, we don't have to play 50 hands right? We can just play a couple of hands and call it a session. This sounds fun . I may be joining

yeah i think most bj tournies you have to play the same number of hands but whatevs. 1-50 hands is what i said.

new rule, just to limit collusion and what now - please pm me your final submission. I will confirm the top 3 sometime tomorrow and post the winners.

So far... there have been 4 submissions and they are all bustos. 0 bytes is the highest score lol
goodluck to the rest of the participants. 10 hours left to get your 50hands submitted.

I would've had a high chance of winning if i screen recorded myself playing.... i completely forgot lol.

Good luck to everyone else!

you have another 3 hours to submit your final result with a video.

current highscore submitted (not verified) is 2500 currently. Regardless of whether or not you beat it, you should submit your score if its >500, you may have a chance at winning incase this person's video turns out to show some reason for DQ.

The last 5 weekly tournaments will begin the first Sunday of May, and be completely NL Texas Holdem

I will look at the videos submitted tomorrow. As of right now, Luke won with a final score of 2500 bytes. But I have no verified it yet. Submission time is over as well

All busted and tied for last with a score of 0!

Gratz Luke - his video for you to watch (he went balls to the wall and did 500 byte bets only lol)

[luke](#) You were too good with the 500 Bytes to bet.

Congratz.
