So after i decided to buy his project "Run4ME" we dealt on 700\$, so here is what happened, at first he was replying normally, i paid him, and here is the btc transaction id, <https://www.blockchain.com/btc/tx/b6a43ae91e6e4ad1fa6ae39a4786b716a691e6fa001af525cf800f7624bdec81>, after paying 700\$, at first he was nice and replying fast then he send me some website files, but without anything to tell about setup, etc..., then he asked if i have ovh server, i said i dont have one, then he said that it doesnt accept btc and u need a ovh, said if there is any good alternative to it, he rejected, so i asked if he can buy it for me and i pay via btc, "he had paypal", and here is the transaction of 170\$ for the server <https://www.blockchain.com/btc/tx/a55feb97187ec81a2ed050fc2591f910f78931aa7426b183d84c2a7326289cfd>, after that, he stopped replying, just said it might take 2-3 days, but now it have been 4 days, without even replying, if it gets delayed he can say that, but not replying isnt a good thing, im opening this dispute so no one fall in this, i hope Meedman reply and fix these issues, and also he didnt mention he needs money for setup, he dealt with me as he do all setup, but now he asks for money to do the setup which he asks for nearly 100\$ to do the setup and he doesnt reply, i have screenshot of both discord and hf conversations in case HF admin/moderator asks for it.

I am sorry for your loss @Raz, but this really doesn't sound like something Meedman would do. Maybe he changed or he really was hacked.

I am not defending him or anything BUT this doesn't sound like the guy we used to know.

I hope you will get your money back.

Almost 1k is a lot for everyone.

Good luck.

thankyou bro , at first i didn't expect he scammed me until i asked his friend from jabber and Meedman said that he will not get back my money (he is not answering me on HF and Discord) , i trusted him at first for that i sent the money without Middleman

anyway the topic is over and there is nothing to do Meedman was good at past but he changed.

was the deal done on discord or hf??

he agreed the price here through PM and like you see on the contract

after that we moved the chat to discord

Well, I hope it all gets resolved soon. He usually disappears after responding or reply after a while. on my opinion this will never be resolved because he ran away , when he stole my money he got back run4me domain and sent email to all the customers , and it doesn't work , my friend purchased a key it was on 4 on queue at first and now there is around 68 files on the queue (all of them scammed by Meedman)

thankyou

4th scan after the maintenance
