Thread: [\[DEVELOPMENT\] Upcoming Advanced Keylogger \[ADVANCED\]](#)

NYANxCAT - March 22, 2020, 11:31 pm

I'm coding a new project. I already named it and started it a couple of days ago.

Before I write the core features I want to ask you guys to post your suggestions and advice. Also, feel free to write whatever you want. I hope this thread will reach 100+ posts and I hope this project won't down sales paid keyloggers @hf.

The project will be released free unless something happens such as source-code sold during coding or lost interest...etc

/*

```
| Author      : NYAN CAT
| Project     : *****[2020]
| Description  : Gathering information from a PC and then send it back over network
```

This program will be distributed for educational purposes only.

[#] To Do:-

- [0] FTP Delivery = ?
- [1] Passwords/CC/Cookies Recovery = ?
- [2] Advanced Keylogger = ?
- [3] Screenshoot = ?
- [4] Camera shoot = ?
- [5] Download File From URL = ?
- [6] Icon Cloner = ?
- [7] Assembly Cloner = ?
- [8] USB Spreader = ?
- [9] UAC Exploit = ?
- [10] Melt = ?
- [11] Fake MsgBox = ?
- [12] Multi Startup Methods = ?
- [13] Clipboard Grabber = ?
- [14] Anti-Analysis = ?
- [15] Multi-Files Binder = ?

*/

Kindness - March 23, 2020, 3:16 am

Nice to see you start a new project. Hope it will be great key logger. If you mind Please, Add password recovery of these browser and mail clients.

Browsers:

Google Chrome
Chromium
Firefox
Microsoft edge

Internet Explorer
Opera
Brave
Torch
Uc Browser

Sysadmin:
FileZilla
WinSCP

Mail Clients:
Outlook
Thunderbird
Clawsmail
Mailbird
eM Client

Best of luck brother

Accord - March 23, 2020, 4:08 am

It will surely down sale keyloggers (including mine) but I still like free program for community, you inspire me to make one. i just get tired of no feedback thats why i decided to sell it instead of giving it for free.

Best of luck and congrats on getting married.

NYANxCAT - March 23, 2020, 11:31 pm

(Mar 23, 2020 12:01 AM)M0HX Wrote: [\[CITE\]](#) [x] mutex

[x] delete cookies on first run.

[x] supports for multiple keyboard language inputs (ar, en, fr, ch, etc)

[x] self-destruct ?

[x] vbs/lnk/other output formats?

Best of luck nyan! ?

Thanks a lot

I forgot about mutex, I will add it for sure.

The keylogger will support multi-languages

Best of luck and congrats on getting married.

Thanks a lot.

I hope so, It's just that I will bring more features than the paid ones.

The client-side is almost finished [90%]. it's 530KB

I didn't write the builder, I hate designing and dealing with controls xd maybe later next week.

Still waiting for you guys for your suggestions.

Kindness - March 24, 2020, 1:44 am

If it doesn't effect your plans then you can add some more option like-

SMTP Delivery(Using web mail,G-mail,Outlook,or any other e-mail services).

Log Installed Programs(Which antivirus/software are installed in the system)

IP Logger

Save/Load settings

Full unicode support keylogs

Thanks for your kind reply brother.

Always love and respect from my heart.

NYANxCAT - March 25, 2020, 8:54 pm

hi

what's the point of knowing all software installed? I just don't get it. you don't even have access to the system because it's a keylogger not RAT.

Dibsymodzz187 - March 26, 2020, 6:45 pm

omg look so nice dude <3 nice OMG

PirataKing - March 27, 2020, 4:15 pm

obviously this have stealth mode, right?
its icon invisible to taskbar, startmenu, etc?

- able to determine monitor size
- able to determine winver/pc specifications

best of luck

Raeed_Mazin - March 27, 2020, 10:31 pm

first congrats on getting married.

- + Upload File
- + Invisible
- + LAN Spread
- + Microphone Logging
- + Log Filtering
- + Password Protection

- + Upload File
- + Invisible
- + LAN Spread
- + Microphone Logging
- + Log Filtering
- + Password Protection

+ Upload File :

You can upload a file from your computer to the victim's machine.

+Password Protection:

The files and the server are protected by password so that they are not tampered with by the pseudo analysts.

+Microphone Logging:

Recording the sound from the victim's device in any possible format

NYANxCAT - March 29, 2020, 5:02 am

So I decided to make the builder side.

I will release a mini version just to check the stability and I will release the full version after reading feedbacks and fixing errors

tux1 - March 29, 2020, 7:10 am

This looks great! Can't wait for this to be released

Kindness - March 29, 2020, 8:24 am

Wow ! Nice an clean Design.I am very excited.Hope you will release this very soon.
Best of luck brother.

gifar_uCuL - March 30, 2020, 8:41 am

greatest :) HWD brother ...add browser about advanced keylogger 360browser

thanks

SIM-3906508 - March 30, 2020, 10:37 am

if u want u can add telegram delivery

ping010101 - March 30, 2020, 3:20 pm

It looks really cool. The Graphic design is Nice. I wonder why don't you write something and sell it, you are pretty HQ Member. Thanks.

Lockii Hack - April 1, 2020, 9:41 am

You really are the best nyan! it's been a year since i followed you ... great

Multi- OS support (Android)
Configurable self-removal
Ability to record sounds
High stealthness rate

a kind of RAT, but shaped like a keylogger

Mustakrakash - April 1, 2020, 11:38 am

offline logger?
idk if its worth it

B FOR BADASS - April 4, 2020, 12:11 pm

Looks like a nice project. Good Luck with the development process..

Turkcoders - April 4, 2020, 1:13 pm

pc + android server instaler
it would be great

cltrade - April 14, 2020, 3:11 pm

These two are very important and will be appreciated

Foxmail recovery
Native

Bubu Yayaa - April 14, 2020, 6:43 pm

nice one love to use it bro

killaxdftw - April 21, 2020, 6:18 pm

I'm not sure if this is easy or if you have already done it but how about email delivery?

NYANxCAT - April 21, 2020, 6:20 pm

(Apr 21, 2020 06:18 PM)killaxdftw Wrote: [\[CITE\]](#) I'm not sure if this is easy or if you have already done it but how about email delivery?
email delivery will be added. thanks for your suggestion.

markkyboss - April 21, 2020, 11:34 pm
do you plan releasing this for free
its awesome

maxlifted - April 22, 2020, 1:21 am
This project will bring back the days of limitless,syndicate/Hawkeye keylogger. Hope you keep the price fair enough and the project will come to stay not the one that will disappear after few months.

boogs - April 22, 2020, 9:13 am
It would be nice to see the ability to log info you've obtained from willing participants into a file, perhaps it would make folders for each participant and dump the info they voluntarily gave you into files in their dedicated folder, Example;

```
Folder;LOG-KATIE  
txtFile;4/19/2020  
txtFile;4/20/2020  
txtFile;4/21/2020
```

```
Folder;LOG-BRYAN  
txtFile;4/18/2020  
txtFile;4/19/2020  
ect,,ect
```

Also grats on getting married, i hope you few are safe during this time.

Also lovely from what I've seen so far this project will be amazing, the UI you posted is quality and the features you've already listed are great as well,

killaxdftw - April 22, 2020, 9:11 pm
Hi, I'm back, I see you haven't gotten the password recovery, I have a reliable keylogger from <https://www.instructables.com/id/Simple-Keylogger-Python/>
it just takes the key inputs and inputs them into a txt file (python), it could be a simple way of logging passwords if they are user-inputted

Also, I assume this also runs incognito and in the background?

P.S: the python keylogger also disguises itself under winupdate in case anyone opens the task manager, it also uses run.vbs to run invisibly although im not quite sure how that works

n0_mercy - April 23, 2020, 3:43 am

In your opinion, why should someone use a keylogger when you can use a RAT with keylogging functionality?

NYANxCAT - April 25, 2020, 6:00 am

Released.

Sh4d0w_C0d3r - April 25, 2020, 10:02 am

This Keylogger was supposed to be free or not(MassLogger?)? or please correct me if I am wrong, I will accept it as always!

NYANxCAT - April 25, 2020, 10:20 am

(Apr 25, 2020 10:02 AM)D4RkNiK Wrote: [\[CITE\]](#) This Keylogger was supposed to be free or not(MassLogger?)? or please correct me if I am wrong, I will accept it as always!
I opened development thread to see ask members what features to add. that's all.

Thank you!
