Looking for any job as my country is in lockdown... No one can leave their homes.

My qualities:

- Fluent English
- Web development (full stack - frontend & backend)
- Forum management
- Business management
- Support (customer or technical)
- Professionalism
- Quick Learner
- Into both whitehat and blackhat stuff
- Available most time of the day and night
- Low payment rate as I'm coming from "not so rich country"
- and many, many more!

You can hit me up on discord: dalton#3374 or telegram: daltonrs

Would you like to learn a side hobby managing social media? Possibilities are that you will strengthen your business development skills and expand your networking capabilities to market your abilities.

I'll tutor you for free, my benefit is I get to refine my communication skills.

What are your skills in blackhat or specifically email hacking, I am looking to hire

I would offer you an opportunity on something that we could split 50/50 and I would do all the investments. PM me and I will explain the details.

Well even if someone does claim he's "good" at it, the chances are 100% that it's a scam...
