Thread: [How to Permanently Activate Windows 10](#)

SIM-3609092 - March 23, 2020, 1:03 pm

Recently stumbled across this tutorial and used it with success! If you want to activate Windows 10, you can do so for free with the CMD Prompt.

Step 1: Windows + R to open the Run box. Type "cmd", and press Ctrl + Shift + Enter to open and run Windows Command Prompt as administrator.

Step 2: Type slmgr.vbs /upk and hit enter

Step 3: Type slmgr /ipk NPPR9-FWDCX-D2C8J-H872K-2YT43

Step 4: Type slmgr /skms zh.us.to

Step 5: Type slmgr /ato

Congratulations, you are done!

EDIT:

(Mar 23, 2020 03:42 PM)Adidas Wrote: [\[CITE\]](#) I've used this trick for a while, works like a charm. Thanks for sharing. ?

Btw, if zh.us.to (step 4) is offline, there's a bunch of alternative hosts you can use, check the list here:

<https://gist.github.com/CHEF-KOCH/29cac70239eed583ad1c96dcb6de364b>

I thought it could maybe benefit some users here who are running with unverified versions of the OS!

That's a good question. I am pretty sure they make enough money as it is. probably too much money to even care.

tux1 - March 23, 2020, 2:07 pm

This looks very interesting, thanks for sharing!

No problem!

Edit: another thing, you'll need to use the right key to your Windows version.

decodeX - March 24, 2020, 9:21 am

Thank you so much!

I didn't know about this yet

Lindros - May 4, 2020, 3:48 pm

What's the difference between enterprise and pro? I did this with a different company code and got pro but the activate windows kept coming on and off every time I would turn on/off my computer.

kylo1337 - May 7, 2020, 10:10 am

Thank you so much!

I didn't know about this yet

The 3rd - May 7, 2020, 8:18 pm

Imaoooo the windows can patch itself without any ex tools. thanks

4751 - May 8, 2020, 4:07 am
