Hi everyone, I've spent the last month or so cultivating my favorite podcasts and I was curious what were your favorite podcasts. Feel free to include favorite audio books as well.

my favorites:

Security/InfoSec/Hack:
Darknet Diaries

Risky Business

Unsupervised learning

Malicious Life

Hackable

Informative/Infotainment:SYSK

Radiolab

Freakonomics Radio

Story telling:Lore

The memory palace

Comedyyour mom's house

JRE

Two bears one cave

Let me know what your favorites podcasts are.

I appreciate the recommendations. I'm a big fan of Joe Rogan and I definitely need to give the fighter and the kid podcast a listen. If you like Bert Kreisher and Tom Segura from being guests on Joe Rogan, then you would like Two Bears One Cave

Check Joe's podcast with Eddie Bravo, that guy is a legend as Joe is.

Forgot to mention Andrew Schulz podcast. This dude is hilarious and actually talks about some serious things occasionally!
