Thread: [Group for sale? Partially for sale?](#)

Yert - March 23, 2020, 6:47 pm

Hey all, been around HF for a couple years now.. Always been a fan of the new groups that come along.

Anyways to the point, I am curious if anyone is selling a group.

+ Also if you are looking to be a group owner 50/50 with me! I can buy one by myself, but It'd might be cool to go 50/50!

Please contact me with info regarding these matters :)

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I think people can go 50/50 while purchasing. The owner rights might go to one person (for UserCP & group management controls I think) while the other one will be a leader. Please correct me if I am wrong.

You're right. That arrangement is set to make any 1+ person partnership to fail. Has happened to many I believe.

I am sure Omniscient has his reasons for putting up the arrangement in place. That would work nicely when the owner has a higher stake and the rest (leader(s)) have smaller percentage (s) in the group (in terms of running and recruitment). I think almost every group has such a system. It's all about good understanding, I suppose.

HF only recognizes a single group owner as the true owner. Any sideline agreements are irrelevant when administration gets involved with transferring a group ownership. If you wish to partner with someone of your own choosing, it's not really enforceable to prevent it, but it's also usually not a good idea.

I agree. I would partner up mostly as a deal to buy a leadership spot. 50/50 is very hard to enforce.

Well, the market price of groups are \$100 atm since all groups are dead af. So for \$50 you can co-own, I'd say throw another \$50 and just buy the group.

Thread carefully. If you do trade with him, let him go first and ONLY let him send BTC, not from his carded accounts.

1. Don't post warnings through the forum, if DD isn't enough for you then you can create Community Alert thread here [Marketplace Discussions](#)

2. He's not limited because he "scammed" you, the real reason why he's limited is "Flaming, Threatening, or Harassing", you can check that if you click on his Warning Level.

3. He won't be able to post, send messages and accept/start contracts as long as he's limited. Read more about limited access [here](#).
