You don't have a contracted customer badge on the post. Please ensure proper use of contracts.

I don't think it's possible to edit the contract to include the TID, what you can do is Cancel the contract(Both of you should click the cancel contract button), then you make a new one and make sure to include the thread ID and the contracted customer badge will automatically be added to all of your replies.

Paid him 4 days ago and haven't received anything so far. Not responding on Discord since 3 days. Let's see if he will respond soon or not.

You should have made a contract linked to this thread to secure you.

Not familiar with the contract system at all, I'm not an active HF user anymore. It's still my fault tho, should have used it (even tho I have no clue how it works & how it would protect me).

since you don't have a contract with him, just create a community alert and post some proofs.

He was responsive to me aswell, until 3 days ago. Now he is constantly online and not responding at all.

I will happily remove my comment once he messaged me back with either an explanation or the product.

I will not create an alert right now, I will give him a little more time to respond. Who knows, he might be busy with whatever during those times. Ain't easy for everyone.

Haven't received anything from him so far, so I guess that he scammed not only me but others too, according to his open dispute at the moment. Can someone help me maybe getting my money back that I have paid through F&F? Would appreciate any help ??

so many designers in here and you ended up hiring a new guy .

anyway i remember someone paid me through f & f and he still managed to chargeback .
try calling paypal and good luck.

Charging back through f&f is possible although it's way harder, for example they chargeback and claim it was an unauthorized transaction, and It happened to me once and I lost the chargeback for more than 75\$, in fact the client already knew when ordering that he was gonna chargeback and made sure to use a VPN or something while sending my payment so that it looked like his Paypal was hacked.

so what? that's my business who I'm trading with, not yours.

will try that, thank you!

i will try to call them and explain them that I was fooled, maybe they'll charge it back but who knows, let's see. thank you for helping ??
