Well i dont what so special about your ebook since there tons of ebook that contains stuff about SEO (you can go to fiverr/seoclerks instead for SEO related stuff) so yeah, maybe you twisted the contents to make it look professional and easy reading. Well im not judging about your thread/post. Im just tryna say GLWS. Oh and also, im willing to take 1 free vouch copy if you dont mind. Ill write very honest review if you interested. Thanks for your time reading this

Sorry, this was shared in bhw for free, but unfortunately the threads were deleted. They are still indexed in google if you search site:blackhatworld.com "royserpa". So you may get them still.

Anyway, not interested in selling this.
