Thread: [Anime Discussion Thread Archive](#)

Megane - March 27, 2020, 2:38 pm

On behalf of the Anime Adventures section, I thought I'd create a massive thread where anime fans can quickly find a discussion thread if it has been created. At the current moment, I am only including shows that are currently airing and threads that have been created in the past few months.

Additionally, this thread serves another purpose by allowing members to know if a discussion thread has been created already.

I think we can all agree that if a discussion thread for a specific anime has been created, there is no need for a new one! That being said, if you want me to include one of your old threads I will be happy to do so!
