Thread: [Set Reminder](#)

Xerotic - March 27, 2020, 3:51 pm

You can now set a reminder to be notified at a later point in time about a thread. To access this feature, simply click the gear icon at the top right of a thread. From the dropdown options choose "Set Reminder". You will be presented with a calendar interface (mobile devices should revert to their native date input) to select a date. Just click the button to confirm the reminder and you are all set.

Here are some graphics to show you the process:

Click this gear:

Choose "Set Reminder":

Choose date and submit:

We are currently restricting the dates to be a maximum of one year from the date you set the reminder. The minimum date is the current day. We are currently processing reminders twice a day, so if you set a reminder for the immediate future, you will be reminded sometime between 0-12 hours from that point in time. You can only have a single reminder on the same thread at a time. Once you receive a reminder for a thread, you can set up a new one immediately. You can have multiple reminders as long as they are on multiple threads.

If you are having trouble accessing the page then you may need to clear your cache. There is one file that was updated that you may need to purge from your browser.

<https://hackforums.net/jscripts/thread.js>

CTRL + F5 on that page or directly empty that file from your browser cache.

Thank you.

Lavish Living - March 27, 2020, 3:54 pm

nice update

!remindme 3d

Close, not exactly there yet though

Bear - March 27, 2020, 3:58 pm

Now this, this is amazing. Thank you very much for this @Xerotic

SoulZeh - March 27, 2020, 4:01 pm

It's like you're a robot [Xerotic](#) like holy shit, I saw Omniscients reply to that suggestion thread literally when he posted it, I go for a nap and wake up and the next thing I see is you've actually added it, jesus... Good job man.

Xerotic - March 27, 2020, 4:03 pm

Since you were sleeping, be sure to check out the <https://hackforums.net/hackuman.php> UI update as well ?

SoulZeh - March 27, 2020, 4:04 pm

Oh don't you worry, that was the first thing I literally opened when I woke up, I love it and I'm so pissed I napped.

Astrogen - March 27, 2020, 4:08 pm

Nice addition, I saw this suggestion thread back then and now it's added real quick. I can now use this to remind myself a few minutes the check-in thread will get closed so I'll be early on the new check-in thread.

Xerotic - March 27, 2020, 4:09 pm

Well with the way the timing on this works, it isn't super accurate to the specific minute. For now it is more generalized towards the day. BUT depending on usage (if it's a popular enough feature) we can add some additional controls to get more accurate time periods.

Astrogen - March 27, 2020, 4:13 pm

Ooof, just checked it. So it's only for dates right now, would be really cool to see the time setting included ? It's still awesome the way it is right now tho, thanks for that ?

Sick - March 27, 2020, 4:17 pm

WoW another lovely addition on the forum .. You never seem to stop Xerotic .. Nice one tho awesome mate

MavenGradle - March 27, 2020, 4:20 pm

Good feature to have to be honest. Especially in order to follow progression update threads like this one:

<https://hackforums.net/showthread.php?tid=5997436>

Tyr - March 27, 2020, 4:28 pm

This a nice addon, thanks. And yes, this will definitely help keep users more informed on important threads like the one Maven pointed out and a plethora of others, as well as for personal use. This

will definitely help me out at least, because I often forget to follow up on many claims I make within posts/threads.

Nachfolger - March 27, 2020, 5:35 pm

Dang what is this datepicker my dude

Xerotic - March 27, 2020, 5:37 pm

(Mar 27, 2020 05:35 PM)Nachfolger Wrote: [\[CITE\]](#) Dang what is this datepicker my dude
Do you like it or do you not like it?

James Burnham - March 27, 2020, 5:39 pm

What is the main use of this new feature? In which occasions would a user need a reminder?

Nachfolger - March 27, 2020, 5:42 pm

(Mar 27, 2020 05:37 PM)Xerotic Wrote: [\[CITE\]](#) Do you like it or do you not like it?It's just not consistant with site design.

Oh well. Life goes on.

Charger - March 27, 2020, 5:53 pm

(Mar 27, 2020 05:51 PM)Xerotic Wrote: [\[CITE\]](#) Oh well. Life goes on.
Does it though?

It's not a big deal tbh

MavenGradle - March 27, 2020, 6:59 pm

One question though. Will the reminders be delivered by our dear friend [mention=3583467] in convo, will they appear as a notification and/or will they appear as personal messages? It's kind of unclear at this point in time.

Dorrance - March 27, 2020, 7:07 pm

I guess I will remind myself to post on my threads lol.

Hydra - March 27, 2020, 7:08 pm

Damn that's impressive turnout. Suggested, Approved, Coded and Shipped. Amazing dedication and work, love it!

omy11 - March 27, 2020, 7:17 pm

This is a great feature. There's been so many times i've checked out a thread i am interested in and forgot to post and lost it forever.

Game - March 27, 2020, 9:00 pm

This is a nice little add-on. I can see this being very useful in future.

I'm liking the new Hackuman UI, shame I haven't found an egg to get started yet though.

Great job.

SaintJimmy - March 27, 2020, 9:18 pm

This is a really neat addition Xerotic. Thank you for adding this. It's a good feature to have and the datepicker looks neat as they come. The Hackuman UI update looks nice as well.

Kill Joy - March 27, 2020, 10:34 pm

This is a very nice feature. Thank you for the update. Was a quick update from when the suggestion was posted too. :)

luke - March 27, 2020, 10:35 pm

awesome update xerotic!

!remindme 7d

The Broker - March 28, 2020, 1:55 am

Good to see my proposal being actually added.

Great job man.

Renestey - March 28, 2020, 2:19 am

Awesome addition Xerotic!

Edit: clicking set reminder from dropdown doesn't open a datepicker on Android, I might have an outdated version of chrome though

Zero - March 28, 2020, 3:25 am

Finally the end of "Posting here to come back later" LQ posts.

THANK YOU

AYMG - March 28, 2020, 6:45 am

Wow, you actually did it. Thanks!!

Why? That's incredibly pointless to have (chat commands on a forum?)

Angela White - March 28, 2020, 6:50 am

(Mar 28, 2020 06:48 AM)Charger Wrote: [\[CITE\]](#) Why? That's incredibly pointless to have (chat commands on a forum?)

the !remindme thing would actually be useful for some members, especially in the marketplace.
"Going to buy this on Friday when I get paid! !remindme 4d"

my other suggestion was just me saying something dumb because i'm high as shit

AMGTech - March 28, 2020, 7:20 am

Cool idea thanks for your top work :)

iNviZ - March 28, 2020, 3:55 pm

This is a nifty add on. I can think of a few things I could use this for. Well done.

Bossk - March 29, 2020, 2:20 am

This will certainly come in useful many times in the future. Good update man!

Central Sky - March 29, 2020, 3:50 am

Cool update, thanks HF Team!

Mix - *March 31, 2020, 4:15 pm*

Lovely addon to the site I can see it being useful for a few new members and even myself I need be.
Great work!

Mudkip - *April 1, 2020, 1:53 pm*

Very convenient feature for a lurker like myself.
Thank you for the addition.

Nate - *April 1, 2020, 7:09 pm*

Nice edition again Xerotic
