Thread: [INSTANT CARFAX | ANY VIN ANY TIME |](#)

Spotlight - March 28, 2020, 11:29 am

Hello, I am here to announce my service of CARFAX reports! CARFAX is a site that charges \$40 to do a history check on a vehicle which includes tons of useful information such as number of owners, maintenance records, accidents, and tons of more! I will lookup a VIN for you and give you the report for only \$4. I am always online and ready to take orders so I can guarantee I'll be the most reliable! If interested, I take BTC and ETH. If trusted, I will take PayPal.
