So update on the vouch copy I was given from Denny

He took one of my accounts that already had 340 followers. I had a trial period of 24 hours and he gained me about 60 followers for my niche. So yeah happy with the service provided. Results will be better for niches out there that are more global.

Advised that this number can fluctuate as well so don't forget my niche was a specific sport in Australia which would be harder to get followed etc

Thanks Denny

**Lextian** - April 5, 2020, 2:37 pm

Posting to find this later for when my store is ready to give a try.

We are providing genuine growth of your account with real people that will engage with your content. We will never send bots to your profile, not one action you receive will be 'bought' or 'botted' (eg. likes, comments or follows). We will make sure to attract users that are in the same niche as your account is. While taking actions with them, we will put your account 'up there' and make it be seen by others – therefore gaining you the followers.

We use unique and innovative techniques to put your Instagram profile in front of the eyes of targeted-profiles that have a high probability of engaging with your content and following your page.

We can't provide any guarantee on how many followers you will gain in certain time period, that entirely depends of your content and your actions as well. We will try our best to get enough people

to look at your content, but you will have to post good content to actual make people engage (like, comment, follow) with it. No one can guarantee you that you will receive certain number of followers in certain time period, that is impossible. The type of services that guarantee something like that are either lying to you or buying fake followers.

TLDR: We can't promise or predict that.

You never posted pics of any accounts you manage? Or proof? I'll purchase if you can do a test trial on my account, also is there a certain amount of followers you're offering?

I totally forgot. I am quite busy these days. Will try and do it now.

Yes, 24 hour trial is available. Contact me via Telegram, Skype, forum PMs or if you want Discord - PM me for it. :)

Short answer is - no, I can't promise any amount of followers. Here's long answer:  
We can't provide any guarantee on how many followers you will gain in certain time period, that entirely depends of your content and your actions as well. We will try our best to get enough people to look at your content, but you will have to post good content to actual make people engage (like, comment, follow) with it. I would love to try this out. Are you still offering a trial run for users? I'll take one in exchange for a detailed and honest review. I want to boost my legitimate personal page so if this works I'll definitely continue it for the month.

Best Instagram growth service on HackForums!

**StarGraveyard** - May 4, 2020, 10:04 pm

Perfect service, no matter your niche! In 6 days, I gained 300 real followers, my likes and comments multiplied by 5 on new posts, and I've made over \$500 from selling to them. The service doesn't touch your likes/comments/posts/DM's, so there's never any shadowbanning involved. The most I had to do was verify my phone number once. All in all, 29.99 for a month of service is a steal, considering this has only been less than a week! HQ Service, and HQ Support!
