But I will come back to his service and make some passive income with his service. On the first day of trial, I was very dumb doesn't know anything about crypto trading and he is willing to teach anyone so you can join this if you are completely noob to crypto trading, So the first day I was to make a trade. He said that I should know how things work before you trading or if you trade without simple knowledge, It's just basically gambling. So he teaches me

everything about simple trading, And I start to learn and know. A week later when the trial ends I'm already know how to trade, how does it work. The thing is he is a good teacher ,knows whats he doing, willing to teach, help anyone with real effort. Even though you have 0 experience or just free trial user. He still supports everyone to give effort to everyone no matter that they are free trials. I appreciate his trial and I will come back later. Sorry for my bad English

I am in the trial right now and planning on purchasing a month. So far one call was a loss and another call was 30% profit so not bad. I will say that you need a nice size bank roll to do this.

I'm following the trial, and the calls have been good so far. Its crazy easy to follow along and stuff, but yeah you do need to invest a good amount. So far so good, and I'll probably buy the month.

Investment amount depends on your expectations. Usually , Returns ranges from 15-40% a month.
(Total profit on capital)

So you should have a amount which balances the subcription fees as well as you are also profitable with it.

I will give my honest review of the trial... He seems very knowledgeable on trading.... but his service has terrible customer service... I waited for him 2 days just to set up a damn bot for me and wake up early in the AM just so he can help set me up with some bot that automate my trades... he doesnt communicate with me until 2 days later saying he had some obstacles...when he was busy chatting it up with other members of his group and leaving me behind... he gave some PDF file for us to learn... thats fine... but initially he needs to know he has to help set up people to make sure few or no questions are asked later... I didnt like the whole communication part so i ask a refund for the subscription and didnt want to give it to me... lol... any beginner who wants to try to join this service please be very wary on lack of communication and help... he definitely needs a customer service team or else there will be problems down the line if his subscription base gets bigger...

funny how he edited the no refund part when im making this post

248% profit refers to the profit percentage of all the signals.

It is not on the intial deposit as you dont invest your all capital in only one signal. you invest 5-15% a signal.

A thumb rule is that 1/4 of total profit is the return on the intial capital.

Example, If we have 248% profit then $1/4$ of 248 = 62%. 62% would be the total return on your intial capital.

but in real life case, profit ranges around 15-50%

(real life case - people exit early with less profit or at early targets etc.)

I made a commitment to you which was not you paid me for but I did because it isnt a big thing. I told you about the Cornix bot - used for auto-trading and you initially declined for it but later on wanted to go for it. I have told you that I will set-it up for you. I was busy for two days and i didnt remember about it and was busy giving you guys signals and analysis (which is what you paid me for)

Cornix bot is not owned by nor i get benefit of referrals. I was voluntarily helping you to set-it up (which is not my duty rather cornix team would do it) but i couldn't make it to you as i was doing my primary job for which you have paid me for. When I was able to set-it up for you, at that time you didnt want to and want a refund.

I tried to help you out more than I should but you took it as my obligation and raise a issue among

US.

I am still willing to set-it up for you but you have left programme and blocked me /:

I use Cornix bot (third party trading bot) for my trade report and since may, their trade report calculation is flawed with errors like, considering take profits as negative gains, difference in profit/loss summart than in real life so due to those reasons, April trade report is on hold and May is yet to end.

I hope it will fixed soon so i can post.

Every traders need to learn technical analysis before trade, because without technical analysis you can't stop your loss. I am using my TA knowledge for avoiding losses. Another important thing is manipulation less exchange like BINANCE, KoinPro, Kucoin.

I am using KoinPro Because i trade both crypto and Stock and KoinPro give me chance to do both trade in one platfor.

Interested in crypto trading for quiet a while, I will be taking trial in binance futures, let's see how it goes!

hi_man - June 21, 2020, 6:45 am

I have been giving out trials to HF members for Free. Hop on for this week's Trial. I have Binance Futures and Bitmex Mentorship Group where we have signals + Guidance.

Reach me out over Hackforums or Telegram - @Anisole

kong0497 - June 29, 2020, 1:04 pm

Just finish the trial, But I will not continue yet because I got other things to do first. But I will come back to his service and make some passive income with his service. On the first day of trial, I was very dumb doesn't know anything about crypto trading and he is willing to teach anyone so you can join this if you are completely noob to crypto trading, So the first day I was to make a trade. He said that I should know how things work before you trading or if you trade without simple knowledge, It's just basically gambling. So he teaches me everything about simple trading, And I start to learn and know. A week later when the trial ends I'm already know how to trade, how does it work. The thing

is he is a good teacher ,knows whats he doing, willing to teach, help anyone with real effort. Even though you have 0 experience or just free trial user. He still supports everyone to give effort to everyone no matter that they are free trials. I appreciate his trial and I will come back later. Sorry for my bad English

10/10

Would recommend who are trader, interested in crypto trading but doesn't know anything, looking to invest your money

do you have account management for those who live in different time zones?

hi_man - July 30, 2020, 9:15 am

(Jul 29, 2020 01:07 PM)dfuid17 Wrote: [\[CITE\]](#) do you have account management for those who live in different time zones?

We do not offer this kind of service as this service is a fishy business. All those who provide account management charges you a hefty management fees initially and then they share the profit with you. So They do not loose money in this service. Only you are the one who is at stake of loosing money. Who will be responsible for the loss of your account?

That is why this service is very fishy and sort of scam.

What we offer is that, if you do not have time or have fulltime jobs, we offer automated trading bot which follows all the signals posted in our channel.

I have done a bit of this before and can see the strategies and systems implemented are very similar to ones i have seen in the past.

I recognise them from n*****s and a few products c*****rp***h and the older t***dj****r.

If i am right then the strategies being used are very well established and safe (not risk free) - but if you recognise who i am talking about and your following the MAX 2% R:R (and trying to get below 1%) let me know because I will definately have a look.

Stanley - August 17, 2020, 3:59 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hi I'm really interested; can you email me at juderubini@yahoo.com

I don't have enough posts to Pm Yet.

Is this a win win? And how much money per week and per month

PrimitiveEyes - October 23, 2021, 4:45 pm

Mentorship

Hey I viewed your cornix auto pilot program. I'm interested in mentorship def, I'd need to start next week when I open up a bank account if I choose to purchase and review!?:)

Grim - October 23, 2021, 4:46 pm

still offering mentorship? interested
