Thread: [Infected group & userbar](#)

AYMG - March 31, 2020, 12:19 pm

This is a late suggestion, it would be a lot better if this was suggested before, but it still might be a good idea.

This is purely for entertainment, it won't benefit HF in any way.

39 people currently bought the corona virus award. They received the award on their profile, random hackuman egg, and scratchcard.

No one knows when corona will be gone completely and as long as it's here it will be a popular topic everywhere, there are threads about corona every day.

What if there was a temporary infected group with its own userbar. I'm talking about the upgrade groups (leet, uber), not about the private groups.

There wouldn't be an option to upgrade to it, instead, you would get in a group once you buy the corona virus award.

No benefits, no group chat, just userbar.

I'm not sure who designed classic userbars but I can guess Novica did. I assume it wouldn't take too much time for him or the guy who designed them to do it. Using the original UB template, adding a little corona virus <https://i.imgur.com/w4l79Tq.jpg> and making Inf3ct3d.

Group and userbar would be gone once corona is, or they could stay and be rare since only those who bought the award would wear that userbar.

Thoughts?

Edit:

Thanks to [mention=1441945] for creating this UB as an example.

This would be funny as hell!

I hope they find it worth investment!

Each award is 50\$ so I think investing in a UB is not a big deal.

SIM-3205632 - April 1, 2020, 2:14 am

I would buy the award if it came with its own userbar no cap.

SIM-4626121 - April 1, 2020, 2:29 am

A solid idea.

I agree.

spiral - April 1, 2020, 3:30 am

Maybe for those who buy both awards? As like an extra reward for buying both and support the site.

NERO - April 1, 2020, 4:58 am

I'd donate for it!, Get that bar Omni! <3

AYMG - April 1, 2020, 5:49 am

Thanks to all, I'm glad you like the idea.

Thank you, it's good as an example, but should be done with proper icon and letter size like l33t and ub3r. But still, great work, thanks.

A site that I don't think I can mention has a new system where users have a chance of getting infected by replying to people in a thread. Eventually, the whole site will have corona. You know if someone's infected by a green outline on their post.

omy11 - April 1, 2020, 7:09 am

If this gets approved im buying both awards right now.

Kinda weird how far some sites go to try & turn this deadly disease into a joke. xD

SaintJimmy - April 1, 2020, 7:34 am

This seems like a good idea. Would give people something more to buy the Corona Virus Award for. This will help support Omni as well. Neat addition it shall, all I can say. Lets see if Omni approves of this as well.

SIM-3587630 - April 1, 2020, 7:45 am

[mention=1441945] userbar looks cool, and the whole thing would be kinda funny to see.

Sigma - April 1, 2020, 7:55 am

This would be pretty cool, spice it up a little bit around here.

Dorrance - April 1, 2020, 8:14 am

Nice userbar, could be a good idea.

If this is done, how would the admin's go about adding everyone to the usergroup.

Astrogen - April 1, 2020, 8:17 am

Maybe there can also be just an effect that will make our current userbar infected, it would look very cool imo.

Nate - April 1, 2020, 8:27 am

Good april fools joke, this won't get accepted.

He said it already, you bought the award = infected group

Oh, you mean the Hackuman event that HF did with COVID-19-HUM 2-3 weeks ago? Yeah, we were the first site to do that clever idea. ?

EDIT: Novica did not make the current style userbars. These are the OG userbars going back more than a decade. He has indeed made some for groups owners though.

Stanley - April 17, 2020, 9:14 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Funny, I always seem to notice that the other site has things about a week after HF releases.

Toosii - April 18, 2020, 2:23 am

Would be awesome, I'd buy the awards right now.

Neal Caffrey - April 18, 2020, 6:27 pm

I think this answers the suggestion pretty well. It really has no benefits and there are enough userbars as it is. I don't see why this would be implemented.

Toosii - April 20, 2020, 12:57 pm

Maybe a Hackúman egg don't agree with the userbar suggestion though.

I already stated it's purely for entertainment. Since the old groups/UBs got removed (Root, Epic and can't remember if there were any else) this one can stay as long as the corona is here and maybe still be here after it and be rare.

Xerotic - April 20, 2020, 6:56 pm

Ok, but the moment you get in the group your account slowly starts decaying because it is infected. After 2 weeks the account is deleted completely as it succumbs to COVID-19. Fair?

I agree, but only if we get a vaccine. ?

The vaccine saves your account, but wipes it completely blank. But it's alive.

Eh...

Even better idea:

You get into HF hospital and you have limited access to prevent infecting other members as long as there's at least 1 infected man on the planet.
