Thread: [lol, HF got me April Fool](#)

__M__ - April 1, 2020, 12:02 pm

Few minutes ago when I was logged in I got a notification that my account is locked and I have to pay \$20 for unlock my account. I was really scared (not for the \$20 but its say someone tried password reset) but after click on continue I got my praise. I am a Fool.

I found it suspicious because it was way too easy. Because of that I did hesitate to click on 'continue' ?

I fell for it was like the fuck..

Anuta - April 1, 2020, 12:12 pm

Jesus that message scared me too :P

ViG ZaDDy T - April 1, 2020, 12:13 pm

Lol i was like wtf is this

Also took the bait. I had felt something was off but took the bait regardless. Good one Omni

Definitely got me. I just recently got a new ISP, so that means a new IP, and I'm in a new city as well. It didn't help my case much when I also did a password recovery a day or so ago.

Well played.

Mr.Nobody - April 1, 2020, 12:28 pm

I was like what did i do, i'm not usig vpn

Bot Shop - April 1, 2020, 12:30 pm

LOL for about a ms it tricked me.

Theocritus - April 1, 2020, 12:32 pm

i thought on it for a second and thought "wait, i have 2fa, there is no way password reset would have been done"

Xtreme™ - April 1, 2020, 12:36 pm

It did startle me for some time though xD

Then I realized its the 1st of April and the admins might be up to some tricks!

LOL!

Stay Home, Stay Safe!

Cheers!

I knew there wouldn't be \$20 fee to 'recover' your account. If it wasn't there, I would honestly believe I got hacked some how haha. My heart skipped a beat, so doctor / hospital bills will be for Staff hahaha.

That shit tricked the fuck out of me...

GG [HF](#) with the big pranks

___M___ - April 1, 2020, 12:40 pm

Ha ha so I am not the only one who scared a little bit :)

Washasat - April 1, 2020, 12:41 pm

Man this shit got me very hard. I've been changing all of my passwords all of a sudden , ran several anti-virus scans , went to google to see if there is something wrong with the forum, i've even enabled 2FA on all of my Accounts, and i kept regreting as to why i didn't enable 2FA on HF. Man this was so dope. I kept thinking about who did scam me and with whom i was talking to these later days. That's all because yesterday i've seen an iceland IP popping on my pc trying to gain unauthorized access; and i was like , how did he do it? even though i am still sceptical about that iceland ip which showed up yesterday. Anyways, you did great frightening me.

Protomario - April 1, 2020, 12:56 pm

i was about to login to my email account and change all my passwords because i thought i got hacked -.-
