Thread: [Snapchat app that can forward pictures from camera Roll to camera](#)

Jaxon001 - April 2, 2020, 12:56 pm

Hello,

Would someone be able to help me out on which app would be best to use camera roll images through Snapchat as would be willing to pay ??

Thanks ??

I have used spiral's app its the same layout as snxp but when i was using it after 7 days you would have to use impactor to resign the app you can avoid this by getting a developer account some people would be fine with cydia impactor but i just hate when apps get revoked so that is why i prefer snxp
