Thread: [Refunds?](#)

CloudAnarchy - April 3, 2020, 5:09 am

Hello guys I am not "new" to the forum in a sense I have made my account couple years ago. That being said I am not active at all here due to many rl reasons but now with corona I got the time to be here as well . I was looking forward to open a refund service I read the rules but just to be sure I wanted to ask here as well. Is it allowed to open a refund service? Because I didn't see anything on the rules against it.
Thanks in advance! :)

What do you mean by a refund service? Can you elaborate?

Refunding service & SE services are NOT allowed on Hackforums.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Sorry I was sure you guys knew about it. Refund is when you order something online from popular sites and once your package gets delivered I can do refund for it. For example with our service you could buy from apple a MacBook Air and pay instead of 1000\$ --> 150\$. Its not something new but we offer our expirience to compared to others with a staggering success rate imo.

Great thanks for the reply. I did read the rules but I wasn't able to find something against it. Seems I didn't undestand it well I guess
