Thread: [Oldschool Protector | Free Temporarily | RunPE + LoadPE | No dependencies | C/ASM](#)

stringsnstuff - April 6, 2020, 12:47 pm

Oldschool Protector | C/ASM | No dependencies | Bypass Windows Defender | RunPE + LoadPE

Free for now for only L33ts and Ub3rs with post count above 250.
10 maximum users with 1 week access.

Features:

C/ASM

50-100KB stubs

No dependencies

Anti-disassembler

Anti-debugger scripts

Checks for hook scripts

Bypass Windows Defender

100% Runtime & Scantime FUD as of 4/6/2020

Builder requires C++ 2015 redistributable for cURL.

Anti-emulators(Sandbox, Vmware, VirtualBox & more anti-emulator scripts).

Free as of now, if you are interested in testing you will receive 1 week license with 10 maximum users and will be able to use the RunPE stub and LoadPE stub.

Post on this thread and contact me by private message.

If you don't leave a review of this free software on the thread after some time when activating your license than your license will be suspended.

Kimera - April 6, 2020, 1:00 pm

May I try ? looks good. thank you

AuJezus - April 6, 2020, 1:01 pm

I know I don't have any membership, but please I can't find any good crypter or any good guides on how to crypt. I was searching a very long time. If you can't give me access then atleast could somebody tell me where to start my journey to making my won crypter??

maxlifted - April 6, 2020, 2:55 pm

Can I have test and I will give me honest review.

Scrutiny - April 6, 2020, 4:42 pm

I'll test this for you & leave a review, let me know.

SIM-4626121 - April 6, 2020, 4:55 pm

I'd be happy to test it but I don't meet the post requirements.

stringsnstuff - April 6, 2020, 5:14 pm

(Apr 6, 2020 04:42 PM)Scrutiny Wrote: [\[CITE\]](#) I'll test this for you & leave a review, let me know. I have sent you a private message, thanks for taking interest.

Tested with Web Monitor and it works with LoadPE stub.

Scrutiny - April 6, 2020, 10:13 pm

Update:

Had the pleasure to test this out & can say it does bypass windows defender, tested using webmonitor with RunPE stub. Stringsnstuff was very helpful through some trial & error & definitely knows what he's doing. Big vouch!

SIM-4626121 - April 6, 2020, 10:30 pm

Could I ask how much this is or will be to buy?

3xploit - April 7, 2020, 4:28 am

I'd be interested in testing this crypter.

stringsnstuff - April 7, 2020, 8:02 am

(Apr 7, 2020 04:28 AM).toxic Wrote: [\[CITE\]](#) I'd be interested in testing this crypter. I have sent you a private message.

(Apr 6, 2020 10:30 PM)xubuntulinux Wrote: [\[CITE\]](#) Could I ask how much this is or will be to buy? \$30-\$50/month will be around how much it will cost after the testing phase is over. For now, it remains free.

Ren And Stimpy - April 7, 2020, 11:52 am

Interested. Thank you in advanced mate

stringsnstuff - April 7, 2020, 12:25 pm

Send me a message so I can send you the download link.

Deathy - April 7, 2020, 3:39 pm

Would love to try this out my dude.

stringsnstuff - April 7, 2020, 3:47 pm

(Apr 7, 2020 03:39 PM)Mos Eisley Wrote: [\[CITE\]](#) Would love to try this out my dude. The thread says to private message me after you post. I'm awaiting your message.

SIM-4581439 - April 7, 2020, 4:01 pm

As far as aesthetic feedback goes, I love the terminal opposed to the traditional GUI. If you get some ascii art in there or title it would be golden. Very cool :) good luck with the project.

stringsnstuff - April 7, 2020, 4:04 pm

3xploit - April 8, 2020, 6:20 am

I have tested this crypter with several files using the runpe method.

The stub is 100% scantime FUD.

It's not runtime FUD, but it bypasses relevant AVs such as Windows Defender, Avira, Malwarebytes and McAfee.

Overall I think this is a good crypter and it's one of the few on HF that have no dependencies.

Thank you for letting me test the product!

BadByte - April 8, 2020, 8:43 am

Hi,

Interested. Thank you by advance.

marazzini - April 9, 2020, 1:46 am

Interested on testing.

I'll leave a detailed review, thanks.

stringsnstuff - April 11, 2020, 5:59 am

Scantime:

0/31

WOW thats really very good at runtime,

Cause many Payerd Crypters over here have bad runtime result then yours.

stringsnstuff - April 11, 2020, 7:31 am

If anyone would like more information about the crypter than you can add me on Telegram, @stringsnstuff is my Telegram.

balha - April 11, 2020, 7:45 am

I'll test this for you and leave a review, let me know.

Miner.contract - April 11, 2020, 1:19 pm

can i test it, please ill try it with fews net and reviews.

stringsnstuff - April 11, 2020, 1:59 pm

IonutGeorge - April 12, 2020, 9:28 am

Interested. I wonn'a try this

Miner.contract - April 13, 2020, 6:38 am

Great crypter, do the jobs working with a bunch of rat and http net

BadByte - April 13, 2020, 9:17 am

I think for encryption ok it's good but, i haven't luck then, my file isn't loaded :((.NET file yes.)

With Stub && RnPE the same.

My Client work fine with my application protector, no problem to load this, then if you have an idea?

[nice work for scantime and Runtime over AVG, but i would like to start my file :p]

Ty.

Why don't try to private message me before you post on this thread? You can't use .NET applications. Stop trying to crypt .NET applications with a crypter with no dependencies. You never even came and asked me for help whatsoever. And then your going to comment on the thread saying that your trying to crypt a .NET application.

Actually I went ahead and suspended your license. The reason being because you never asked me for help, and then you try to crypt a .NET application and since it didn't work you came straight for a post on the thread. I don't like you.

BadByte - April 13, 2020, 10:20 am

Like i say, by pm i'm sorry for!

"Ok mate, i understand your position but i forget this detail: "No dependencies", sorry for this
//stupid i am sometime, it's possible Yes and sorry!

But, excuse me i just say, i'm unluncky and i Say: Good job for scanand runtime, sorry i have the
right toerror no
I haven't say so BAD on application or on you !? Wasn't with bad intention.

Error is Human mate no ? No dependencies, yes now i see ^^ Sorry

Close my licence like you want, no can do versus that.

I 'm not perfect but i'm clean :) you can don't like me, you see...
nop. "

stringsnstuff - April 13, 2020, 10:29 am

BadByte - April 13, 2020, 10:33 am

I will be careful for the next threads and I will try not to do like you because the error is human
otherwise sooner or later there will be more Communication.
Thanks for your understanding.

kfir_z - April 13, 2020, 2:06 pm

Can I have test and I will give me honest review

stringsnstuff - April 13, 2020, 2:19 pm

(Apr 13, 2020 02:06 PM)kfir_z Wrote: [\[CITE\]](#) Can I have test and I will give me honest reviewYou
don't meet anywhere near the post requirements. Can't do it.

stringsnstuff - April 15, 2020, 6:54 pm

I have now changed the post count limit to test this software to 50 posts.

1stetcgoldmedal - April 15, 2020, 10:50 pm

Interesting. pm me :) :)))

It works as advertised. !

stringsnstuff - April 16, 2020, 10:47 am

Please close this thread. No more copies available.

Specter0903 - April 18, 2020, 1:27 am

I hope to get a trial license for this tool, and things like download links.

giantdirewolf - April 23, 2020, 12:10 pm

Please let me test it with my stub. Thank you.

IonutGeorge - April 23, 2020, 3:39 pm

nice, i will try. :))).....

stringsnstuff - April 23, 2020, 3:57 pm

This isn't available anymore. This should be on the market soon though.
