Thread: [Csgo trade banned account](#)

zuchiroz - April 3, 2020, 11:52 pm

Hello I would like to buy a trade banned account.

Account must have a knife gloves and skins for every weapon. Would prefer prime, but the account must come with OE.

I can pay with BTC only up to 700\$ depending on how valuable is the acc.

I only trade with middleman.

Please DM here or on discord : Dark Knight#3826

Thank you.

With a budget like that I can get you almost anything on a non trade banned account.

Also, does anyone know how to recover a steam account with MaFile? I got scammed because I trusted that person to trade without MM. I still have the Ma file of the account with the first email (without access). I will pay you 250\$ if you have a method that works.
