Thread: [EARN \\$3000 to \\$10000/MONTH through AUDIOBOOKS PUBLISHING \[VOUCHED\]\[LIMITED COPIES\]](#)

**Empire91** - April 4, 2020, 4:49 pm

Earn \$3000 / month at least with this little known business: AUDIOBOOK PUBLISHING

PROOFS of my earnings for the last seven months

I have been in the business for about 1 year now, and it has completely changed my life. It is an almost mathematical and very methodical business. If you do things the way I explain the chances of failing are very low.

way I explain the chances of failing are very low.

When I started publishing the first audiobooks (on audible) I was still working as an employee and with only 1-2 hours a day I was able to quit and get to do at least 6k per month.

You're wondering if we have to narrate or write the books ourselves. The answer is definitely NO! We find ghostwriters (at low price on fiverr) and narrators that we will decide whether to pay them upfront or with royalty share (we share the earnings from sales in this case).

This is the business model:

1. I find keywords where there is high demand and little competition ( on AUDIBLE.com) with the step by step methods that I teach (with the help of a particular software that finds us keywords / niches that are selling well
2. Have the ghostwriter (on fiverr) write the book paying maximum \$150 for 25k words.
3. Have the book narrated through the ACX.COM platform by paying upfront (max \$150) or for free through the royalty share option.
4. You receive the money from the audiobook sales every month

You don't have to do any form of marketing! AUDIBLE takes care of all that. You can guess that with only 1-2 hours a day you will receive the royalties every month passively. The audiobook market is growing strongly and there is little competition. This is the right time to take action! ?

THIS in my opinion is the BEST online business to start with, it's simple, requires little capital and you can earn a lot.

Once you buy it you will receive my FULL guide of 150+pages! (PDF ) . In the guide I explain step by step everything you need to know to get great results right away!

My guide (150 pages+!!) contains:

An overview of what is audiobook publishing

How to do keyword search with little competition and lots of demand

How to find cheap writers

How to ran the audiobook on the front page for more sales

How the audible algorithm works

SECRETS and tricks few people know about

How to scale the business up to 10k per month

And a lot more...

51,361 Audiobooks sold in about a year, uploaded on the ACX.COM platform (which are then sold on audible) . For each book sold you earn at least \$3

## FAQ

[b]How much will I make on a single audiobook?

If you do things exactly the way I explain you cam earn even 1k a month with just one audiobook. But from my average experience you earn about \$400 per single book every month. The more audiobooks you make, the more money you make.

How much money do I need to start ?

To start with an audiobook, you need between \$100 and \$250.

Of course, the more you invest, the more money you make. If you don't have a high capital (at least 1k) you can start low and reinvest the earnings in order to scale up the business to at least 5k per month.

Can I publish audiobooks even if I don't live in USA?

The platform allows you to upload audiobooks for people living in the UK, CANADA, USA and IRELAND. HOWEVER there is a method that I use and LEGALLY allows you to publish audiobooks. I live in Italy and I've been publishing audiobooks since one year without problems since . So it works WORLDWIDE

When do I get the payment from audible.com?

You receive payments towards the end of the month for last month's sales. So if you publish 1 audiobook in March and make 200 sales you will receive payment towards the end of April.

I didn't do any online business. Can I still do this business and earn money ?

Sure you can ! This is the easiest and fastest business to make money online. You don't need to have any skills if you don't know how to talk with freelancers and spend 1 - 2 hours EVERY day to search keywords and niches where there is a lot of demand and then users ready to buy our audiobooks. (all explained in my guide)

Can this business get saturated?

NO! Audible(amazon company) has millions and millions of consumers, so there is no saturation. Especially if you follow my method of finding keywords with very low competition and high demand.

Can I get a refund?

Yes, but only if you prove to me that you've published the audiobooks and you haven't earned anything.

Once you take action & build up your audiobooks library – you'll earn a passive income stream for years to come. Put in the work now, and you'll be financially rewarded forever.?

I read through the material and it's very well-written and extensive. OP provides you with a link for the guide, and it's divided into 10 folders with each folder having sub-contents, making it extremely easy to go through.

I had no previous knowledge of audiobooks/selling them beforehand, and now I feel like I can actually create one and generate sales.

This isn't a get-rich-quick scheme, as you will need to put in some effort and, if you are not creating your own books, some extra money when hiring ghostwriters to create them for you. But besides that, this guide is the one-stop shop on how to actually make a living from audiobooks.

I will actually be using this (still figuring out what niche I want to pursue).

Thanks OP for giving me an opportunity to read this guide.

(Apr 6, 2020 08:28 PM)TehPirate Wrote: [\[CITE\]](#) I received a vouch copy 2 days ago and have been thoroughly reading and verifying the contents within.

This is definitely a long-term method and therefore I cannot provide proof of earnings. The eBook is broken up into multiple PDFs categorized into a style similar to chapters. Each chapter is broken down to every detail possible, OP does not skip any steps or any fine details. Every step is broken up into a process that's easy to follow. I'm not familiar to this method by any means and I didn't have any additional questions for OP. I was able to replicate and research the beginning steps without any issues.

OP is very friendly, he's eager to answer any question you may have. The PDFs are very well written, very few grammatical flaws. You can tell OP has spent a lot of time on it to make it as perfect as possible. I personally believe OP could be selling this for slightly higher prices due to the

vast expansive knowledge contained in his guide. The ROI possibilities are phenomenal and even your worst month should have you break even with your investments if you follow the guide to a T. It's basically a set it and forget it method, the more effort you put into it the more you'll get back indefinitely.

If you have any questions feel free to PM me and I'll answer the best to my ability. It's not often a solid method comes through here for a good price and this is definitely worth considering if you're able to put in the initial work for the long-term haul. Don't sit on this opportunity.

(Apr 7, 2020 03:21 PM)Champagne Papi Wrote: [\[CITE\]](#) I received a vouch copy of this guide. Let me preface my review by saying this: There is A LOT of potential here.

The eBook is very well-written and explains every aspect of the method from A-Z. It's broken down into 10 chapters and is extremely easy to read. Took me about an hour. I was able to follow along without many questions.

I will say that this is not a simple autopilot method. You need to know how to make moving parts work together. This is a good challenge if you're up for it. It requires wit and skill, but nothing significantly difficult. Basically, don't buy this if you can't trust yourself to work on a 2-4 week project or outsource the work to others. You have to have the inherent desire to hustle.

It will take a while to see returns, but it is extremely lucrative. Based on how detailed and efficiently the guide is written, you'd be surprised that the OP filled an entire eBook with important information. He doesn't lull you with boring details. I feel like the OP could offer his price and still offer a good deal on this book. You will see money from this method for YEARS. As long as you follow the book, I am almost guaranteed that you will be able to multiply your investment five-fold in a 6 month span.

All in all, my recommendation is don't hesitate to check it out if you're on the fence about purchasing. It's worth it.

**Lextian** - April 21, 2020, 4:44 am

So i bought this method/ebook a couple of days ago and have not had the time to finish reading through everything until now.

I have to say this is one of the most detailed oriented ebook have read in a long while from this forum, grammatically speaking i could find nothing wrong and everything was well explained.

The method itself is something unique that am pretty sure not many people have heard of it and this is indeed a Set & Forget method once you get it up and running, also i know for a fact that you can actually scale this up to even \$20,000 if you follow the tip and tricks the seller provided in the ebook.

I myself am familiar with some of this process because i currently run a Podcast and a Blog and i use alot of ghost writers, and narrators, so this sort of works in my favor and i also know for a fact that not so many people who buy's this method will be able to execute it or willing to execute it because of the time frame attached in this method for you to start getting rewards or payments.

But if you are someone like me who is interested in a long term investment and wait out 1-2 months to start getting those rewards, then this my friend is def for you and trust me if done right you can be looking at 10k to 20k easy money.

OP further more covered many topics that i feel made me understood more about this publishing business than ever, and infact i already started taking the right steps to set this business up, that's right this is a business that you can actually register in your country and then get an EIN from the IRS and pay taxes and stuff, and the seller covered topics on how to get the EIN from the IRS even if your not an american or living in the USA.

Again i cannot stress this enough, do not buy this if your one of those people looking for a quick investment or quick money because you surely will be disappointed, but if your someone like me looking for long term investment and ready to put in the hours and work to get that \$\$\$ then please grab this now because its life changing.

Method 10/10 and you have my VOUCH.

(May 9, 2020 01:39 PM)Empire91 Wrote: [\[CITE\]](#) there is no saturation on audible. every month there are 20-30 MILLION customers ready to buy audiobooks. The demand is high but there is little competition. try writing "anxiety therapy" on amazon.com and try writing the same text on audible.com . You will see the difference in competition (how many books published on audible and how many on amazon.com).

Also in my guide I teach how to find keywords and niches / sub-niches through specific software, so you can find keywords / niches / sub-niches with low competition and high demand and then you are sure (with data , and data does not lie) to find audiobooks that sell very well.

Interesting, thank you for clarifying. Check your convos.

Review:

So after buying this and looking at it. I thought I would provide a short feedback.

This method has massive potential - Ive found a way to tweak it to make more sales. BUT you will need to invest in it.

You need investment and time. Investments it can be scaled. You will need time to first set up, once done you, you will have to wait for the income to follow in.

I would give it 5\* as it suits me - I have time & investment for this.

3 questions and I'm ready to buy, I expect total transparency.

1. Living in eastern europe, in one of the Balkanics countries, would this be possible? I don't wanna get in any sorts of extra roadblocks to pass, the method itself being already pretty time consuming from what I've read.

2. Realistically, what kind of investment is required so one can expect 2000/3000\$ returns first month. You said about \$200, but I think you've not been totally honest about it reading the vouches. I can't afford a slow start, seeing profits only from the coming months.

3. Not being native it comes harder for me to read perfectly in english and make myself clear and audible. From what I understood I have to record myself reading the books loudly and publish them. Could you talk a bit about this?

1. I also live in Europe and I have been in audiobooks for 1 year without any problems through a method that I explain 100% legal

2. I didn't say you need \$200 to make \$2000-\$3000 a month. I said you can start with \$200. To make \$2000-\$3000 you need 4 -8 audiobooks.

3. Absolutely not! AS written t in the thread, you don't have to narrate the audiobooks but you pay narrators who do this job.

Can you give us an update on how it's working until now?

Thanks

May I ask why you're selling this?

You should have enough investment to scale this as much as you'd want from your last paychecks. What's the reason you're inviting other people into your "goldmine" ?

to diversify my monthly income. why invest money in new audiobooks from audible earnings when i can invest money from hackforum earnings? this way i don't spend the money from audiobooks earnings, and this allows me to grow x2

Maybe he recommends fiverr ghost writers that are actually his account and he plagiarizes everything to make that extra \$.

I've already answered that user (taap) .

I sell the guide to differentiate my income.

A millionaire, typically, has 7 different forms of income.

I don't have time to create fake accounts on fiverr, I have more productive business to do :)

and whoever bought the guide can vouch for that, I didn't recommend any freelancer username. You have to find your freelancer (writer and narrator) on your own, obviously before contacting a freelancer you need to see the number of reviews and other things, to avoid scams.

Also on fiverr if the book is plagiarized you can ask for a refund.

If you just want to waste my time, go somewhere else, okay?

(Apr 6, 2020 06:29 PM)Patriot Wrote: [\[CITE\]](#) I received a vouch copy and here is my honest review:

I read through the material and it's very well-written and extensive. OP provides you with a link for the guide, and it's divided into 10 folders with each folder having sub-contents, making it extremely easy to go through.

I had no previous knowledge of audiobooks/selling them beforehand, and now I feel like I can actually create one and generate sales.

This isn't a get-rich-quick scheme, as you will need to put in some effort and, if you are not creating your own books, some extra money when hiring ghostwriters to create them for you. But besides that, this guide is the one-stop shop on how to actually make a living from audiobooks.

I will actually be using this (still figuring out what niche I want to pursue).

Thanks OP for giving me an opportunity to read this guide.

That user (in May) was referring to the fact that I had written in the thread 0/2 vouch copies thinking that there was no more copy available after 1 hour after the publication of the thread and it seemed strange to him. but for 0/2 vouches I was referring to the fact that both copies are still available.

Then he apologized to me after I cleared it up.

The reviews are all real and made by people with high reputation, unlike you. ALL the reviews were done with CONTRACT

Also I don't even know who is deployed.

I started selling my guide about 2 months ago and NO one has complained or written that I am a fraud.

Stop ruining my thread with useless messages, thank you.

Again, any payment proof from any of your customers to show proof they are earning from your method?

This business takes time.

On average you need to wait 15 days to receive the book from the writer, 15 days for the narrative. And after that an average of 30 days of waiting for the audiobook to go live (acx makes quality checks).

When the audiobook goes live, sales payments are received at the end of the month following the month of sales, so for example, sales in June are paid at the end of July.

The guide has been on sale since May.

Also a lot of people have bought the guide, and I can't write to everyone.

I don't guarantee anything, the business has no guarantees. I teach what worked for me. Everyone is different.

Moreover 80% of those who take courses or guides do not apply what they have studied.

The technique is 20% but the mindset is 80% of the success in any business.

I never fully attempted the method, but that's because OP and myself underestimated the startup costs for this to work.
