There is no risk.

Price of bitcoin during March 21,22 and 23 was around \$6500 and in your image it shows price \$8155 on March 23. Can you explain how?

Can't give a ton of details, but it is a percentage raise over the amount that it was at.

I'll take a vouch copy and leave a detailed review if you're interested in boosting your sales.

Give a vouch copy to someone who will actually test out the method instead of just reading it.

Good luck with sales.

My vouch for Online. BTC profit method.

I tested the method in 2 days, it's easy to use, it doesn't require any skills, Repeatable.

Now let's talk about the profit, your profit will be %10-%25 of your investment.

I earned around \$10 BTC after testing the method with \$100.

Well, that's not bad as I can invest \$1000 and get a \$100 profit minimum !! - Of course you can get more if you have patience.

The method requires everything OP mentioned on his thread, nothing else, nothing hidden.

Not claiming anything but this method seems very similar to a leaked ebook from null*d. Seeing your proof of earnings, i can recognize that it is from ipayyou. This method is no where near worth \$50.

This method is public.

podster - April 22, 2020, 10:12 am

Does it have to do with purse.io?

Paxful, Lbc?

Gift card related?

Blockonome - December 2, 2020, 1:45 am

Any chance of more vouch copies? Because I will actually try it out and then test if it is working and give a detailed review

feggu - December 2, 2020, 10:25 pm

Must have an aged Amazon account (6 months) with some purchases.

The above point is a big problem and i believe a lot of people will see it the same way as i do.

How can you help with this as a seller ?
