Thread: [\(BTC\) Few weeks. Turned 20\\$ into \\$1,300 so far. {READ MORE}](#)

The One And Only - April 6, 2020, 10:55 pm

Hello HF. Not many of you know me when it comes to investing with bitcoins. I have been around when BTC was 60 cents each. During the Corona outbreak I seen an amazing opportunity. BTC dropped to less then 3k a coin. I used only 20\$ and have turned it into \$1,300 with trading. I am seeking team members and partners so we can hit the 10k mark and eventually 100k using my formula. Stay tuned HF I will hit 100k.

4.5k is not 3k

You're lying through your teeth, you wouldn't start with a \$20 investment if you own multiple businesses.

You clearly are still a child with a lack of understanding how investing works. Each project/company I start I start with a very SMALL amount depending on what the project is. Grow up please. I have many legally registered companys in the US. Could provide proof if you are worthy enough of it Imfao.

EVERYBODY who knows me here knows what I do, especially the developers I work with every day.

You feel the need to lie to randoms and make it known you have \$1k in paypal

Posts like these are ridiculous. BTC never hit 2k or even reached 2xxx range. Looks like OP is looking for guys who would give him money so he can scam them.

Stop doing this shit or you'll be closed for making these threads.
