Thread: [\[FAQ / Help\] The Beginners Thread / Questions? Ask here!](#)

PRODIGY™ - August 12, 2010, 10:06 am

? Hello, and welcome to Prodigy's Common FAQ + Question Booth ?

First thing first, you're a beginner right? Please, take the time to read the [help documentation](#) so that hackforums will be the best place possible!

New, dont know where to start? Click [here](#)

The goal of such thread is to complete, and do the following:1. Discontinue the same topics asked daily, and analyze the most common questions into this one post.

2. Help people whenever is needed, and have a thread containing useful information.

3. Let people be aware that alot of us do care to help you

So, first things first - The most common questions!1. What is a RAT? - Remote Administration Tool, lets you control the victim's pc, keylog, etc.

2. What is a Keylogger? - A trojan that captures the victims keystrokes, and alerts the controller/owner.

3. What is a BlackHat? - Black hat is used to describe a hacker who has malicious intent.

4. What is a WhiteHat? - White hat hackers are usually security experts, who specialize in penetration testing, etc - however being one doesn't mean automatically good at penetration testing, nor being security expert. That can go without saying to any hat.

5. What is a BotNet? - A network of bots, infected by a controller who can make the bots all perform actions at once.

6. What is a Portforwarding? -Port forwarding helps you to open up a port so you can host servers, etc.

7. What is Bruteforcing? - A brute force uses a mathematical algorithm to go through to try and eventually crack a password etc

8. What is a DDoS? -A distributed denial-of-service attack (DDoS attack) is an attempt to make a computer unavailable to its internet.

9. What is DOXing? - Doxing is basically finding out information about a person, and using it to find out more.

10. What is a skid? - Someone who downloads hack tools, uses them, and thinks they're unstoppable.

So, second of all - Let's archive the most common requested things in this board.

1. CyberGate Setup - <https://hackforums.net/showthread.php?tid=222657>

i would really like this to be stickied, it is very well thought out if thats the way i can put it, good job OP :D

hobbs - August 12, 2010, 9:44 pm

Bump once again for my good man Prodigy, Nice to see this thread is going so well, I mean it started today with only like 10 links now look at it. Quite impressive and should be stickied for the amount of help this one thread can give to new comers, nice work man and keep it up. ?

`P R O D I G Y™ - August 12, 2010, 9:46 pm

The only downside, people with little to know knowledge immediately post a topic without reading [Help Docs](#), etc.

pk. - August 13, 2010, 6:47 am

Thank alot it best tutorial.

`P R O D I G Y™ - August 13, 2010, 7:43 am

Glad to have helped you my friend :)

redoom - August 13, 2010, 8:33 am

Here's another bump for you, since it started slipping down. I'll start referring new people that seek help here.

`P R O D I G Y™ - August 13, 2010, 12:39 pm

Thank you once again redoom :)!

Kain_12 - August 13, 2010, 1:34 pm

Hey, I'm new, I need some help. Can someone give me a brazzers account?

FREEZEE - August 13, 2010, 1:43 pm

my vpn list of processes has some remote addresses that are just :
What doe sit mean?

`P R O D I G Y™ - August 13, 2010, 4:57 pm

@Kain12: There are some leaked all around the forum, simply search em!

@PhReal: It means they are using those ports, I do believe.

MightyKnight - August 14, 2010, 12:13 pm

Bump For future generations like ME!

Acid409 - August 14, 2010, 3:51 pm

AMAZING BRO! keep up the good posts

`P R O D I G Y™ - August 14, 2010, 4:06 pm

Thanks for the bumps guys! Glad you're all appreciative of this thread.

hobbs - August 14, 2010, 9:18 pm

Giving you another bump man, more people need to see this thread. I really enjoy this thread an find myself using it quite often to help other new people. It's nice an handy when I need a thread link.

Nice job again man. ?

zillafree - August 14, 2010, 11:14 pm

Prodigy,i dont know how in the {explicit content here} you manage to make awesome guide like that but you always do.not one of your guides suck and your guide was the only port-forwarding guide that helped me,so props to you,Prodigy.

Cam G - August 15, 2010, 2:09 am

Dammit, my tutorial didn't make it in. Oh well, free bump for you! Nice thread :).

vladimirzec - August 15, 2010, 4:49 am

I must bookmark this when I come home...So many interesting stuff...I made some those threads to find what I need easier and to help others,but this thread has simply little from everything and great quality,thanks! ;)

PRODIGY™ - August 15, 2010, 8:56 pm

I'm going to start updating it a bit more, and stuff.
Thanks for the support.

Dillyy - August 15, 2010, 8:59 pm

Wish i would have known about this thread before i posted my question. =(

No point in double posting i guess.

Here is the link <https://hackforums.net/showthread.php?tid=614208>

PRODIGY™ - August 15, 2010, 9:01 pm

Yeah it's meant to be quite useful of easily finding common things.
It still lacks a bit of info.

shanker - August 23, 2010, 4:03 pm

Nicely, done should help A LOT of nubs, and non-nubs, that don't know some of it :)

tariq-88 - August 23, 2010, 8:34 pm

Great tutorial bro... Helped me alot...

Appnon Hopper - November 7, 2010, 4:47 am

Great layout of all the subject of beginner hacking very usefull and educative.

PRODIGY™ - November 7, 2010, 7:34 pm

Thank you, that is very appreciative. :D

Markdapimp - November 7, 2010, 7:37 pm

helpful thread its like the helpdocs

PRODIGY™ - November 7, 2010, 7:37 pm

It's like the [Help Docs](#), but specifically for this section. :D

PRODIGY™ - November 11, 2010, 10:03 pm

I'm still offering support to anyone whom may be needing it.

Okay, I have edited my two invalid answers with your correct one.

I appreciate your concern of actually correcting information that teaches users.

White hats are the opposite of black hats, if BW have malicious intents then WH want help and support systems, userbases etc.
