I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Do these accounts have warranties?

I purchased a Grammarly account a few months back and the premium status was revoked a couple of months later. If they are covered I'll purchase one :)

Thanks

Still online for all late night lurkers who want to grab an account

Dembe Zuma - April 10, 2020, 7:32 pm

I have bought several times from AccountSenpai.

From the first order I got 40% response rate of my clients that the accounts not working in the first attempt to login.

I thought its a one time stand and continued to buy.

But it repeatedly In future transaction.

He warned me after two transactions that might be 10%-20% not working

But I recieved much higher rate and the users that still active not lasts for 1-2 days.

Inside all this mass, I couldn't send all of the dead account to him because the pressure of my clients on me. I can proof for you guys how many messages I got from clients that said me "the account not working"

When I told him that I want to share my experience he treated me that he would post all the

accounts he sold me. (Attachment below)

To sum up I bought from the seller accounts and he did send them but part of them didnt work at all from first place, some of them deactivated after 1-2 days and little part still working.

After all this bad accounts and loosing money, I got reported and got 4 negative feedbacks and my account and money is on risk.

Attached screenshot that he treated me that he will post all of my accounts I bought, Legit seller would never do this its not ethic.

Don't LQ bump your thread and don't share multiple discords. You must verify the discord account
you intend to use in conjunction with HF.

i verify my new discord already but didnt update it here since i can't edit the post... and also how is
telling buyers that i have new stock a LQ bump? you have very strange rules.
