Hello HF, ?????

I started a Light bulb company for myself about 3 years ago, i have a post on HF for the market already, but today i am bringing you wholesale quantities makes a very great item to sell on ebay, this is my side hustle i usually do on the side, alot of things hit me in life in regards to opening a two brand new businesses and its been very hard maintaining the online hustle,

SO I INTRODUCE YOU GUYS:

IF YOU DROP A BULB AND IT BREAKS YOU WILL GET A REFUND, PSHH... THEY DONT BREAK WHEN DROPPED.

My light bulbs are branded with their own name

i have two different packaging

-4 pack blister \$40 a case = 40 bulbs

-8 pack blister \$75 a case = 80 bulbs

if your buying more than 50 cases i can give you a very good wholesale price.

you can see the pictures below

I'm selling them by the case only each case comes with 10
so for a case of the 4pack blister would = 40 bulbs
and for the 8 pack blister = 80 bulbs

i have over 100 cases for the 8 pack
and 100 cases for the 4 pack

i'm looking for serious business and people that are interested in finding a product to market online and to carry away my brand name legacy

Hey, I see you are selling at wholesale prices. The pictures that you've provided show that 4 of them cost \$1.08 retail. Which means it costs 27 cents per bulb retail compared to the \$1 per bulb for the "Wholesale" price.

What do you have to say about this?

Your never going to find a light bulb for a dollar let alone a led, yours looks very promising. I might buy a case of a 8 pack strictly for personal use as a contractor.
