Updated, thank you!

mrknol - April 8, 2020, 12:06 pm

Shouldn't the post.php not be empty? When downloading it, the file post.php is 0kb and is empty

do not use phinsg pages with f_wrtte and thath wtire to html or text files! Google will detect them wit ease! Upload data to a database, my pishing page got blocked by this so dont be stupid

kurisu01 - June 13, 2020, 8:25 pm

Thanks for sharing this sir.

Link is not working sir.

Joeygets44 - *June 27, 2023, 3:01 am*

I need help phishing Facebook account
