Thread: [\[HELP\]\[FIXED\] Portmap.io | portforwarding to setup asyncrat.](#)

androexo - April 9, 2020, 3:36 am

FIXED!

```
Thu Apr 09 12:33:44 2020 OpenVPN 2.4.8 x86_64-w64-mingw32 [SSL (OpenSSL)] [LZO] [LZ4]
[PKCS11] [AEAD] built on Oct 31 2019
Thu Apr 09 12:33:44 2020 Windows version 6.2 (Windows 8 or greater) 64bit
Thu Apr 09 12:33:44 2020 library versions: OpenSSL 1.1.0l 10 Sep 2019, LZO 2.10
Enter Management Password:
Thu Apr 09 12:33:44 2020 OpenSSL: error:0906D06C:PEM routines:PEM_read_bio:no start line
Thu Apr 09 12:33:44 2020 OpenSSL: error:140AD009:SSL
routines:SSL_CTX_use_certificate_file:PEM lib
Thu Apr 09 12:33:44 2020 Cannot load inline certificate file
Thu Apr 09 12:33:44 2020 Exiting due to fatal error
```

So the problem was you need to change that name "first" to something else on both configuration and mapping rules!

Enclave - April 9, 2020, 4:51 am

Same for me , can't port forward using that so to switched to ngrok, problem is, you cant have a fix port it keeps changing
