Thread: [Serious question - award appeared?](#)

LoremIpsum - April 9, 2020, 3:46 pm

The "headshot" diamond appeared (white one). After I posted something, can someone tell me what this is about or who 'donated' it if that's a thing? Will close thread if it's not allowed to ask, but I don't see where it comes from.

This one just appeared after my most recent post, but what does it mean "headshot!" and where does this come from (or who)?

Ctrl + F5. It isn't the white diamond award. It is something else.
