Thread: [socks5 backconnect module](#)

terminator32 - April 9, 2020, 6:45 pm

selling socks5 backconnect system

if u are uses private socks instead public services u are increase profit

system was developed in assembler. high speed minimum size

system were tested more than one year. it was fixed many errors and bugs

consist in:

client part

- socks.exe - not hide from task manager. minimum load to av detects. support XP and higher (win 10 + windows server)
- socks.dll - separate assembly dll (for inject to your bot)

file sizes

socks.exe 31 kb

socks32.dll 30 kb

socks64.dll 47 kb

have autorun. after restart pc socks will return

load percent about 70% after normal crypt

system works in multithread that give high speed

scan runtime detects <https://dyncheck.com/scan/id/8772793e688ddd5a903d5b279cc30449>

server part

support install to windows server and Linux (hardware requirements - 400mb free memory for 1 000 socks)

windows support 4 000 socks. Linux 10 000 and more

- server.exe for run in windows server
- server.out for run in Linux servers
- php admin panel

file sizes

server.exe 15 kb
server.out 13 kb (for Linux)

for soft recommended direct (not shared) internet 1 gbit

if socks are locating in admin panel - internet not load. if u use socks - for stability need 1 mbit or more for each socks

fastflux support but need advanced settings

functions:

- loader with autoupdate every N hours (for long live need update crypt every day)

also i can give u script for upload exe files to your host. cryptor will upload file itself and u have no problems

- firewall (access to socks with allowed ip addresses)
- authorization on socks with login and pass
- GeoIP
- show pc name and user name
- delete bot
- add comments

bot also works with integrity level low. will show prompt dialog

support domains or ip

- also support tor. if domains or ip died - socks return to tor domain

support for addresses version 2. u need set "HiddenServiceVersion 2" + and port that in builder
"HiddenServicePort 4001 127.0.0.1:4001"

after buy u receive link to builder (10 rebuilds)

screen of builder

install is simple. free help for install

price is 750\$ 350\$ bitcoin. renewal for 10 rebuilds 300\$

jabber 1: socks5_bc@ exploit.im
jabber 2: support@ backconnect.org

also u can buy from tor site <http://socks5v7v2snlwr7.onion> (u will get link to builder)

Looks he not using this forum any more ? . You can ask via jabber from his first and last post. This is great product.

His main topic in exploit forum. There a lot of happy customers.
