Hello,

I am interested but not in Software generated back links

What I am looking for

1/ The linking MUST look natural in the eyes of google

2/ backlinks for each language must be done like:

French only .fr links

German only .de links

Spanish only .es links

English open

3/ From my experience, a onetime backlink spread on pages on high DA to gather website strength (not sure if i still need it as the site already has a good DA)

4/ Backlinks in anchor text by:

Blogger outreach

Broken link technique

5/ I absolutely do not want any PBN links, any madeup 2.0 links from newly created blogger pages

6/ I do not care of quantity (many people offer me crazy 6000 links etc) and i know this will kill the site

7/ Blog and social media ok (must be well written long answer - no spammy comments)

8/ ALL LINKS MUST BE THEME/NICHE RELATED TO MY PAGE

I don't care about 100000s of backlink just less but quality let me know if you can deliver and what is your price quote
