Thread: [Rapidgator Remote Upload - Free Download](#)

flexing_99 - April 10, 2020, 6:39 am

Rapidgator Remote Upload is a tool to remote upload files to your Rapidgator account. The program only accept files from servers with direct http access (Example: <http://mysite.com/myfile.rar>) and not from other file hosting sites. The user can upload as much files as he or she wants using this free feature.

Notes: This program was been developed for small files...

Status: Waiting - Means the file is in queue. (Use the Rapidgator site to get the link)

Status: Downloading - Means the file is been downloading. (Use the Rapidgator site to get the link)

Status: Done - Means the file was uploaded succefully and the link is below the status.
