DeciXD - April 10, 2020, 9:48 am

I have over 300 offsite feedback which can be shown upon request :)

Buying all CS:GO Skins & Dota 2 items for a good rate depends on the skin/item.

Also selling skins, add me on Discord for my inventory!

Rate ranges from 50-62%

Paying in Bitcoin/Ethereum/RuneScape 2007 Gold/RuneScape 3 Gold

Discord: Decimate#4026

[contract=tid]Start Contract[/contract]

ALL trades must be done via a contract however add me on Discord to discuss what you have first and if I decide I want the item we can do it via a contract :)

Not currently got anything for sale on Dota, when I do it's usually just Arcanas.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley
