Thread: [Salman Khan has Disputed a Contract with player92](#)

Salman Khan - April 10, 2020, 12:03 pm

I posted a thread in crypto exchange that i want to sale my Trust wallet TWT tokens 31400 twt token

Guy with a name Player92 replied and told me to start a contract and i did it.

He send me \$1 bnb for transaction fees and i sent him my all 31400 tokens just now.

And he cancelled my contract and went offline. So i can't open dispute against him

What should i have to do now? Help me out guys. I did so much effort to earn that valuable twt tokens.

the contract was never accepted, nothing you can really do.

Why on earth would you put the other users obligation as "0 none"? That's you agreeing to give them away for nothing.
