Thread: [Hackuman - Special Powers & Effects](#)

Xerotic - April 10, 2020, 1:50 pm

Introducing.... Special Powers & Effects!

This update is a major change to the battle mechanics of Hackúman. While viewing the [Battle](#) page you now have the choice of "Special". A special attack is a move that depends on the specific Hackúman Monster (HUM) you have.

Kilargr ([Click to View](#))

Name: Kilargr

Special: Poison

Effect: Drains health and shield stats.

D-Daus ([Click to View](#))

Name: D-Daus

Special: Sleep

Effect: Puts HUM to sleep preventing attacks.

Lunge ([Click to View](#))

Name: Lunge

Special: Confusion

Effect: Random chance of an attack going awry.

Ratr ([Click to View](#))

Name: Ratr

Special: Bleed

Effect: Bleed effect causes the next R.A.T.R special to do extra damage. Stacks.

These special attacks are very powerful. As of this writing they have a 100% chance of being successful, however you are limited in their usage per 24 hour period. Each HUM can use their special 3 times in a 24 hour period. Each effect has a different duration. Hover your mouse over the icon (in the game) to see more specific information.

Enjoy.

tbh the more you add to this the more i want to play, just waiting to get a blue or gold egg so i don't waste bytes. been considering hitting up your patreon too <3

SIM-1729678 - April 10, 2020, 1:51 pm

Very nice update to bring the hackúman game to a new level. Nice work bud.

Sick - April 10, 2020, 1:53 pm

WoW looking very good i love it all .. Your working hard on this Xerotic and i love it .. The game just turned again .. Lots of exciting stuff coming out :-)

SIM-3323508 - April 10, 2020, 1:53 pm

How about hatching red eggs ?

Grim - April 10, 2020, 1:54 pm

Awesome great work xerotic seems like your very committed to this! these look very cool

Not enabled yet. Looks mighty nice on your profile, though.

Almonds - April 10, 2020, 1:55 pm

Well done, they are interesting. I can't wait to see what else is in-store for hackuman.

You've done a great job developing the game.

Velma - April 10, 2020, 1:55 pm

sounds great just got my first egg lets see how I go with this.

As long as you don't suddenly log off for a week you should be good. ?

Pow3r - April 10, 2020, 1:58 pm

I like all these little add ons and complications to the game. I must admit that I rather enjoy playing Hakuman now, perhaps even more than Blackjack or Slots.

eXceptional - April 10, 2020, 2:01 pm

The new update made me play again. Also, because of the award.

These updates are really awesome.

Dorrance - April 10, 2020, 2:02 pm

Nice thread bud, I think the R.A.T.R has the most possible OP once it comes to combat.

Mr.Nobody - April 10, 2020, 2:03 pm

Thanks for the update looking forward to get R.A.T.R when i hatch my egg.

R.A.T.R special ability has massive attack potential. A large group of R.A.T.R working together can be a huge threat.

It's all love bud you know I be kidding. I will be next for the Hackuman Killer award. I would say by next week it will spawn?.

I am just wondering will there be a level award, I would say level 100 or 150??

Yeah i don't take it in a bad way mate .. Yeah get that award picked up would be a lovely addition to your collection

Well that would be nice it would keep members playing that's for sure . Because when most get to level 50 they might just stop keep members interested and they keep playing time will tell everything is kept well under wraps and that's the best way . ?

Yep I agree with the statement you made, I think [Xerotic](#) is trying to limit it so it's harder to get to a higher level. He's been very surprised people have made it 50+ now look at me sitting at level 62 I might just kill my hackuman to get my own bounty to start over?.

Yin Yang - April 10, 2020, 3:33 pm

Damn now this a pretty dope addition!

Fish - April 10, 2020, 3:34 pm

BTW you can now click a HUM name from the battle page to a direct link to them. Easy way to share a specific monster link to someone else.

Cameron - April 10, 2020, 4:24 pm

I did tell everyone this there is nothing you can do .. When that timer kicks in his heart stats drop like a rock .. They are just out to cause a bit of chaos then die VERY quickly

Least you had the privilege of winning one .. Would you be happy to win another ? I wouldn't personally .

Yeah that's the only good thing i guess spend the 500 get it out then cause some chaos it's just a shame they don't last longer but i guess that's why they come out eh

But the hitting power is unreal for a fresh egg .. You know it's probably a good thing as you say your not spending a ton of bytes and you were lucky enough to win one ?

LoremIpsum - April 10, 2020, 4:48 pm

Man! You weren't joking yesterday when you told me there was going to be a huge HUM update!

This is amazing haha, I used up my 3 SPECIAL's before I knew about this thread, can't wait till tomorrow.

Thank you for this, already loving it!

Great update! I've stopped playing hackuman for a while since I sold all my bytes but with all the updates going on it got me hooked up again! I've maxed out my moves already so I'm waiting until it refreshes again. I'm currently letting my hackuman recover and is on invisibility mode.

Blogger - April 10, 2020, 6:23 pm

Very interesting. I noticed when hitting Special instead of Attack it added another special power on top of the two that were already there. If we killed that hackuman, does that mean we get those three powers? Sorry, kind of new to the game but want to dominate. lol

SaintJimmy - April 10, 2020, 6:28 pm

Another great update. Everytime the game is about to get inactive, you change the tide with new update. Good job. And I kind of figured out D-Daus's ability when attacking one yesterday.

Cyam - April 10, 2020, 7:10 pm

Why the fuck I haven't read this thread earlier. That RATR special seems so OP and I just killed him without mercy. Gonna hope for another green egg so I can level up my rat.

Ombra - April 11, 2020, 2:55 am

So far I believe only Kilargr and R.A.T.R. effects are useful ones, since they can be used while attacking a specific HUM.

On the other side Lunge and D-Daus ones can be used to protect themselves from a specific attacker, but there are so many potential ones that such powers don't look much effective in the game logic

Astrogen - April 11, 2020, 6:35 am

Just noticed that it's not possible to know the duration on mobile. Hope this gets fixed, playing hackuman on mobile is great.

So how and when do I use the special powers?

How do I get them on my Hac? Still confused a bit. Even though the update seems pretty nice to learn of and BTW i want to say thanks for the update and the insight. ?
