Thread: [Moving thread to another department?](#)

As in the subject, I wanted to ask if it is possible to move the created thread to another section of this forum?? I must admit that such a function would be very desirable?

This is something only a Staff or Mentor should be able to do, not normal members. I would suggest reporting your thread or post that you want moved. Use the report button or it's older than 48 hours (post which you can't use report button), contact a Staff Member. That's the way to go.
