runner - April 13, 2020, 1:45 pm

Do what everyone is not doing,
go back to kik :)

just kidding, or am I?

Cooligan - April 13, 2020, 2:35 pm

I can assure you that Snapchat isn't dead, I know multiple people still using it and making very good money.

[BRAND NAME REMOVED] though is definitely dead, people can tell almost right away if it's a bot account/ewhoring account.

Snapchat is not dead. You must be doing something wrong.

Snapchat def isn't dead, and won't be dead for a while! Gotta work around it!

Nikkijohn97 - April 13, 2020, 3:50 pm

Both kik and snap is not dead

bombberman22 - April 14, 2020, 1:56 am

So true! I was getting crazy traffic for 6 months, now its died. I would get 100-300 adds per day and make 100-500 GBP per day. I can barely scrape 50 adds and £100 atm.

Any pointers?

Try Grindr, I've heard it can be lucrative. ;)

This may or may not be coming from a profited source.

How are you getting blocked so quickly?

Probably because I was adding to much people with a new account. Because I have some reddit accounts I have illimited traffic, probably low quality. I don't know what subreddits are high quality.

Snapchat is for sure still alive, as well as Instagram/Twitter. [BRAND NAME REMOVED] tho, is dead.

runner - April 14, 2020, 3:50 pm

People were making a lot money because they choose on [BRAND NAME REMOVED] only speak with guys from cities where medium wages are \$100k/year and only 35+ guys, now without [BRAND NAME REMOVED] how to select traffic? I have all the traffic I want from reddit but are young and not rich guys.

Hello. I am very interested :)

Amnesia Haze - April 15, 2020, 5:51 am

You can still use any platform if you're good in ewhoring and social engineering.

I still use kik up to this day, not for ewhoring though but still getting a lot of people willing to spend money so it's definitely not dead!

Snapchat for sure isn't dead, maybe you just get bad traffic and need to advertise better.
